PASSION

Intense actions caused by strong feelings and beliefs.

At Flying H Genetics, we have a **PASSION** for producing **SUPERIOR SEED STOCK!!!**

That's why we established our 17 Quality Standards years ago.

These Standards quantify our passion for superior genetics and, along with a sharp knife, ensure every animal we sell is **SUPERIOR**.

SUPERIOR animals must exceed minimums for all 17 Standards for traits from fertility and longevity to calving ease and growth, from structural soundness and disposition to efficiency and carcass traits combined into a functional beef animal that is bred and feed to work for a living.

If you share our **PASSION** for **SUPERIOR** cattle, give us a call.
Bulls and Females available year around.

The Tradition Continues...

BREED FOR PROFIT

Utilize the #1 Tool to Maximize Terminal Value

Designed to work best when selecting sires for use in herds that finish all calves and sell on a grade and yield basis.

Uses USDA technology and CattleFax price projections to predict profit differences between sires in units of \$ per exposed female.

ASA establishes TI to be the most effective selection tool available to commercial producers when marketing all heifers and steers through terminal channels.

For more detailed information on TI, visit:
www.simmental.org

YOUR SUCCESS *Our Passion*

Welcome

Dear ASA Members, Seedstock Producers, Commercial Cattlemen, and Friends of the Beef Business:

Welcome to our latest membership directory for *SimTalk*. With the acceptance of SimGenetic cattle across the country and worldwide, this publication is a great way to stay informed and about letting cattlemen know about your program while learning about all others in the industry. Not only does this publication get to our members, but also to the cattle industry. The 50,000 copies are also handed out at many beef meeting functions and are a great way for members to find contact information of other members.

Dale Miller
*Chairman,
ASA Board of Trustees*

The ASA along with its members have put SimGenetics in a very good position to expand favorably into the future. With our multi-breed genetic evaluation, Carcass Merit Program, active youth programs, our members are in a position to capitalize on the dedication, education, and foresight of our past and present breeders and staff.

The ASA board and staff are working hard to put programs and tools in place that will improve the quality of our product and services to ALL cattlemen. The Publication side of ASA is always looking for ways to better communicate with its members and the cattle industry, be it through print or electronically.

Please plan on attending the 3rd Annual Fall Focus Educational Symposium in Bozeman, MT. This event will also be the “open house” for our new headquarters, so plan on getting your tour of the new building on Friday, August 19, 2016, ending with an evening BBQ at the new ASA Headquarters.

Thank you to the membership, staff, and fellow board members for your dedication, commitment, and hard work making the Simmental breed strong and moving forward in the beef industry.

Dale Miller
Chairman,
ASA Board of Trustees

ORigen YOUR COMPLETE GENETIC SOURCE

MARKETING PROGRAM • CUSTOM COLLECTION • ORIGIN EMBRYO TECHNOLOGIES • SEMEN SALES

Dispelling the Myths...

Bull owners make bull decisions.

ORigen does not tell bull owners what to do with their bulls - owners decide what is best for the bull and themselves. ORigen provides the facilities, care and marketing opportunities bull owners need.

ORigen does not own your bull.

All bulls are owned solely by the registered owners of the bull.

Bull owners set semen and certificate prices.

ORigen does not dictate pricing. All pricing is set by bull owners.

ORigen is a state-of-the-art collection facility.

Located in South Central Montana. Whether bulls are collected at ORigen, or another approved facility, bulls can be marketed through ORigen.

ORigen provides alternative marketing solutions.

The ORigen marketing program is one of the largest distribution networks in the United States. Bull owners maximize their exposure and semen marketing options at ORigen.

The ORigen Difference.

ORigen is an industry partner of Allied Genetic Resources.

Breeder to Breeder Genetic Services

Next Step Cattle Co.

The Proven Source of Top-Quality SimAngus™, Simmental and Angus Genetics

Next Step Cattle Co. is your proven source of SimAngus™, Simmental and Angus bulls for commercial cattlemen in the Southeast. The bulls wearing the boot brand from **Next Step Cattle Co.** will sire calves which will calve easy, wean heavy, demand top prices, and make top replacement females. These calves will also have the genetic ability to be profitable in the feed yard, produce a top-quality carcass and provide the consumer with an enjoyable eating experience.

To take the Next Step toward your goal of producing profitable cattle mark December 3, 2016 on your calendar and plan to attend the 4th annual **Next Step Cattle Co. Bull Sale**. We will be offer 75 head of SimAngus™, Simmental, and Angus bulls and 25 SimAngus™ females including cow-calf pairs, bred heifers and open heifers. The Sale will be at our bull development facility located 10 miles off I-85 near Auburn, AL.

Top Herd Sire at Next Step Cattle Co.

Sales: Southern Excellence Sale and Private Treaty Sales.

Wells Farm's goal is to supply commercial cattlemen with a large group of quality Simmental and SimAngus™ bulls to choose from in a relaxed setting at the farm. We pay special attention to disposition, carcass traits, and conformation. We would like to invite you to become one of our repeat customers who use us each year for their bull purchases.

bzimmerman@simmgene.com

“We’re here to serve you!”

In the fall of 2013, ASA implemented a new model for field services. Our new approach represents a fundamental change in the way ASA meets our members’ needs in this area. The crux of the new model involves partitioning field service functions between two teams — ASA Directors and ASA Area Representatives — to carry out the vision set forth by the Board of Trustees predominantly focused on meeting the genetic needs of the commercial industry through the application of science and technology. (www.simmental.org)

ASA Representatives work on an “area”, event-by-event basis, with their primary role being attendance at member (e.g., sales, field days) and state association (e.g., annual meetings, trade shows) functions. Through your use of promotion services from ASA Publications at a threshold level, you “qualify” to have an ASA Representative assist you, the ASA member, and your customers to be successful using Simmental, SimAngus™, and Simbrah genetics. Cost Share funds can also be utilized to sponsor ASA representatives as speakers or reference people to attend State Association endorsed producer meetings or seminars.

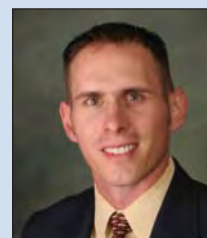

We have built a team of ASA Representatives who have a solid understanding and background in the beef industry, are familiar with the commercial and seedstock business in your area, are people who you recognize and trust, and who can become an invaluable part of your business network. They have strong technical knowledge and the ability to communicate it. The team includes former animal science professors, extension educators and decades of collective practical experience and formal training in beef cattle production. An impressive team by any measure — the best in the industry!

The ASA Science Forum recently changed to a blog format. Our purposes remain:

- To provide information on timely topics and subjects our readers want to better understand.
- To provide a platform for our readers to ask questions, comment, or communicate with one another about the topics posted.

The ASA Science Blog has multiple stories under the following main topics:

- **Genetic Evaluation**
Example: "Better Contemporary Groups Make Better Technology Work Even Better."
- **Genetic Traits and Conditions**
Example: "Red Charlie: A Newly Discovered Red Coat Color Variant"
- **DNA Testing**
Example: "How Does Parent Verification Work?"

We sincerely hope our readers will use this blog to communicate with us and one another about important scientific topics that affect beef cattle production. If you have an idea about a topic you would like to see posted, please send an email to jatkins@simmgene.com.

Quick Reference Guide to ASA EPDs and \$ Indexes

Expected Progeny Differences (EPDs)

EPDs are the most accurate and effective tool available for comparing genetic levels. In using EPDs, the difference between two sires' EPDs represents the unit difference expected in the performance of their progeny. For example, if sires A and B have EPDs of +10 and -5, a 15-unit difference would be expected in their progeny (moving from -5 to +10 yields 15 units). Key to using EPDs is knowing what units they are expressed in. If the above case referred to weaning weight EPDs, A would be expected to sire 15 pounds more weaning weight than B. If calv-

ing ease were the trait, A would be expected to sire 15 percent more unassisted births in first-calf heifers; in other words, if B sired 30 assists in a group of 100 heifers, we'd expect A to require 15 assists. A percentile-ranking chart is required to determine where a bull's EPDs rank him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes, visit www.simmental.org, then click **Science/Education**.

Listed below are the units ASA EPDs are expressed in:

All-Purpose Index (\$API): Dollars per cow exposed under an all-purpose-sire scenario. (See below for more details).

Average Daily Gain (ADG): Pounds of post-weaning daily weight gain.

Back Fat (BF): Inches of backfat at 475 days.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Docility (DOC): Percent of offspring receiving a disposition score of 1 (docile).

Carcass Weight (CW): Pounds of carcass weight at 475 days.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Marbling score at 475 days.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Stayability (STAY): Percentage of daughters remaining in the cowherd at six years of age.

Terminal Index (\$TI): Dollars per cow exposed under a terminal-sire scenario. (See below for more details).

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of yearling weight.

Yield Grade (YG): Yield grade score at 475 days.

\$ Indexes

Though EPDs allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes come in. Through well-conceived, rigorous mathematical computation, \$ indexes blend EPDs and economics to estimate an animal's overall impact on your cowherd enterprise. The same technology that led to the dramatic progress in swine, poultry and dairy genetics over the last several decades was used to develop the following \$ indexes:

All-Purpose Index (\$API):

Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (\$TI):

Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Using \$API and \$TI:

First, determine which index to use; if you're keeping replacements use \$API, if not, \$TI. Then, just as with EPDs,

zero in on the unit difference between bulls. (As described above, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for \$API is worth an extra \$6,000 over a +50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For percentile rankings or more detailed information about EPDs and \$ indexes visit www.simmental.org, then click **Science/Education**.

Important disclaimer:

DO NOT compare index values of purebreds of different breeds, hybrids of different breed composition or purebreds with hybrids — our system was not developed to make valid comparison among these groups. Therefore, you must first determine the breed and breed composition appropriate for your herd and use index values to compare animals within that population.

Sale: December 10, 2016 –
along with Strickland Farms,
selling 30 Simmental, Angus
and SimAngus™ Bulls.
*We are breeders of Simmental and
SimAngus™ seedstock. Our goal is to
produce bulls that will sire the type
and kind of cattle that are profitable
for our customers and that create an
enjoyable eating experience for the
beef consumer.*

Profit Focused in Turbulent Times

Simmental Selection Pressure:

Breed Cow	Wt.
Hereford	1,419
Angus	1,410
Red Angus	1,409
Simmental	1,404

Source: USDA MARC

Sized by Science

Today's Simmental female is on par with the mature size of Angus, Hereford and Red Angus.

Capture Simmental strengths of growth and carcass composition while maintaining responsible cow size and maintenance costs.

SimGenetics
PROFIT THROUGH SCIENCE

American Simmental Association

www.simmental.org

"Hats off to the ASA for being the first breed association to embrace the entire beef industry by offering a multi-breed evaluation for purebred, composite, and crossbred breeders. RCC has used ASA multibreed evaluation since its conception and we couldn't be more pleased. Surrounding yourself with cutting edge people is very rewarding."

Purebred Simmental operation for over 30 years. Currently raise Simmental, Simbrah, SimAngus™, Angus. Three auctions yearly at the farm. Sale facility rental available. 100's of registered and commercial cattle sold privately each year. Call or email today to discuss your goals and how we can help.

Education

Jackie Atkins, Ph.D.
Director of Science
and Education
jatkins@simmgene.com

eNews

Subscribe to ASA's weekly electronic newsletter and stay current on ASA events and news. eNews offers a quick source for the most up-to-date information about the ASA. To subscribe, go to ASA's home page www.simmental.org. Click on the "Join ASA" tab, and then click on the "Subscribe to eNews" tab.

Internet Portal

ASA and ASA Publication, Inc. (www.simmental.org) provide information to keep you informed on the industry and ASA activities and programs. It also provides access to ASA's entire database for research.

State Associations

State associations are local or regionally based Simmental entities that operate independently from ASA to support seed-stock breeders in specific locales. Access your state association officers on ASA's website.

Fall Focus

The ASA fall board meeting is coupled with a day-long educational session focused on animal breeding and current topics important to seedstock breeders and commercial cattle operations. Open committee meetings and staff updates are a perfect opportunity to learn what's happening at the ASA and offer your ideas. Join us in Bozeman for Fall Focus 2016. Watch for details or view past years' presentations at www.fall-focus.org.

Educational Events and Electronic Seminars

ASA hosts educational events in partnership with industry and academia throughout United States as well as electronic seminars. Check ASA's website, our Facebook page or sign up for eNews to keep current on events taking place.

Blogs

In addition to our print media, the ASA has several blogs focused on a variety of topics.

- **ASA Science Blog** — Join Dr. Jackie Atkins, Dr. Lauren Hyde and Dr. Mahdi Saatchi to discuss the latest animal breeding topics. Questions and comments are welcome!
- **Have You Herd?** — Your resource for all things related to DNA testing and Total Herd Enrollment (THE).
- **tReg** — An extended electronic version of *the Register*. Launched in 2013, tReg goes beyond the bounds of print to delve deeper into the stories of Simmental and SimGenetics producers, programs, and happenings
- **Profit Through Data** — Provides information on data submission, relevant ASA news and deadlines, tools available through Herdbook Services, and much more.

Walton-Berry Graduate Student Support Grant

In 2013, Jim Berry of Wildberry Farms, Hanover, IL, funded a grant to honor Dr. Walton's dedication to animal breeding and Simmental cattle. In an environment of less grant money available, and fewer graduate students interested in applied agriculture, it is increasingly difficult to conduct research in applied animal breeding. The Walton-Berry Graduate Student Support Grant provides \$8,000/year (one \$5,000 and one \$3,000 grant) to faculty in order to advance graduate research programs with preference given to the area of genetics in livestock species.

Sale Date:
Bulls of the Big Sky,
Billings, MT,
February 20, 2017

We began our cattle ranch in 1999,
with genetics tracing back to 1992
when Maureen, as a youth, founded
a small Simmental herd. We utilize
AI to produce SimAngus™ and to
strengthen our purebreds. We also
farm 1,600 acres of mixed row
crops while custom baling
several thousand tons of
alfalfa and timothy hay.

Sale Date:
Annual "Bulls in Bancroft"
Production Sale last Saturday
in March.

*Vertical Edge Genetics is a diversified
livestock operation specializing in
top quality seedstock. Using lifelong
experience, education, integrity and
foresight, we expect to produce cattle
and horses that are highly satisfying to
a variety of customers. We would love
to visit with you anytime and enjoy
showing the cowherd to visitors.*

Stay ON top of Total Herd Enrollment

The purpose of the Have You Herd blog is to:

- Provide up-to-date information on Total Herd Enrollment (THE) and DNA services.
- Communicate instantly with members on relevant topics.

Topics posted to date include:

- Coat Color in SimGenetic Cattle
- New Red Coat Variant
- April 15 is Opening Day for Fall Calving Herds
- How to Order a DNA Kit
- How to Look Up Frame Scores and Adjusted Scrotals
- DNA — Your Insurance Policy
- THE — There are 4 Options from which to choose
- DNA — Changes You Need to Know

How to follow the blog:

Stay up-to-date and receive an email notification for each blog post by visiting www.simmental.org/haveyouherd and selecting the +Follow option at the bottom right of the screen. Enter in your email address and select sign me up.

We're hoping that the blog will be a great resource for members to access with any questions regarding THE and DNA services. If you have an idea for a blog post, please email to lwells@simmgene.com.

Sponsorship Packages Fall Focus 2016

"Teaming Technology with Tradition"

Contributions may be made to the
American Simmental-Simbrah Foundation
designated to the Fall Focus.

For more information about sponsoring Fall Focus
2016, please contact Bill McDonald at 540.230.6225
or by email at info@mcdonaldfarms.com

Become a sponsor of ASA's Fall Focus 2016
and enjoy the following:

Level I (Under \$500):

- Name listed in Fall Focus 2016 program
- Name included on sponsor poster
- Group photo at the event

Level II (\$500):

In addition to the above perks, donors will receive the following:

- Your business brochure included in the registration packets
- Designed poster — 16 x 20
- eNews banner
- Table-Top Space by registration desk for business promotion

Level III (\$1,000):

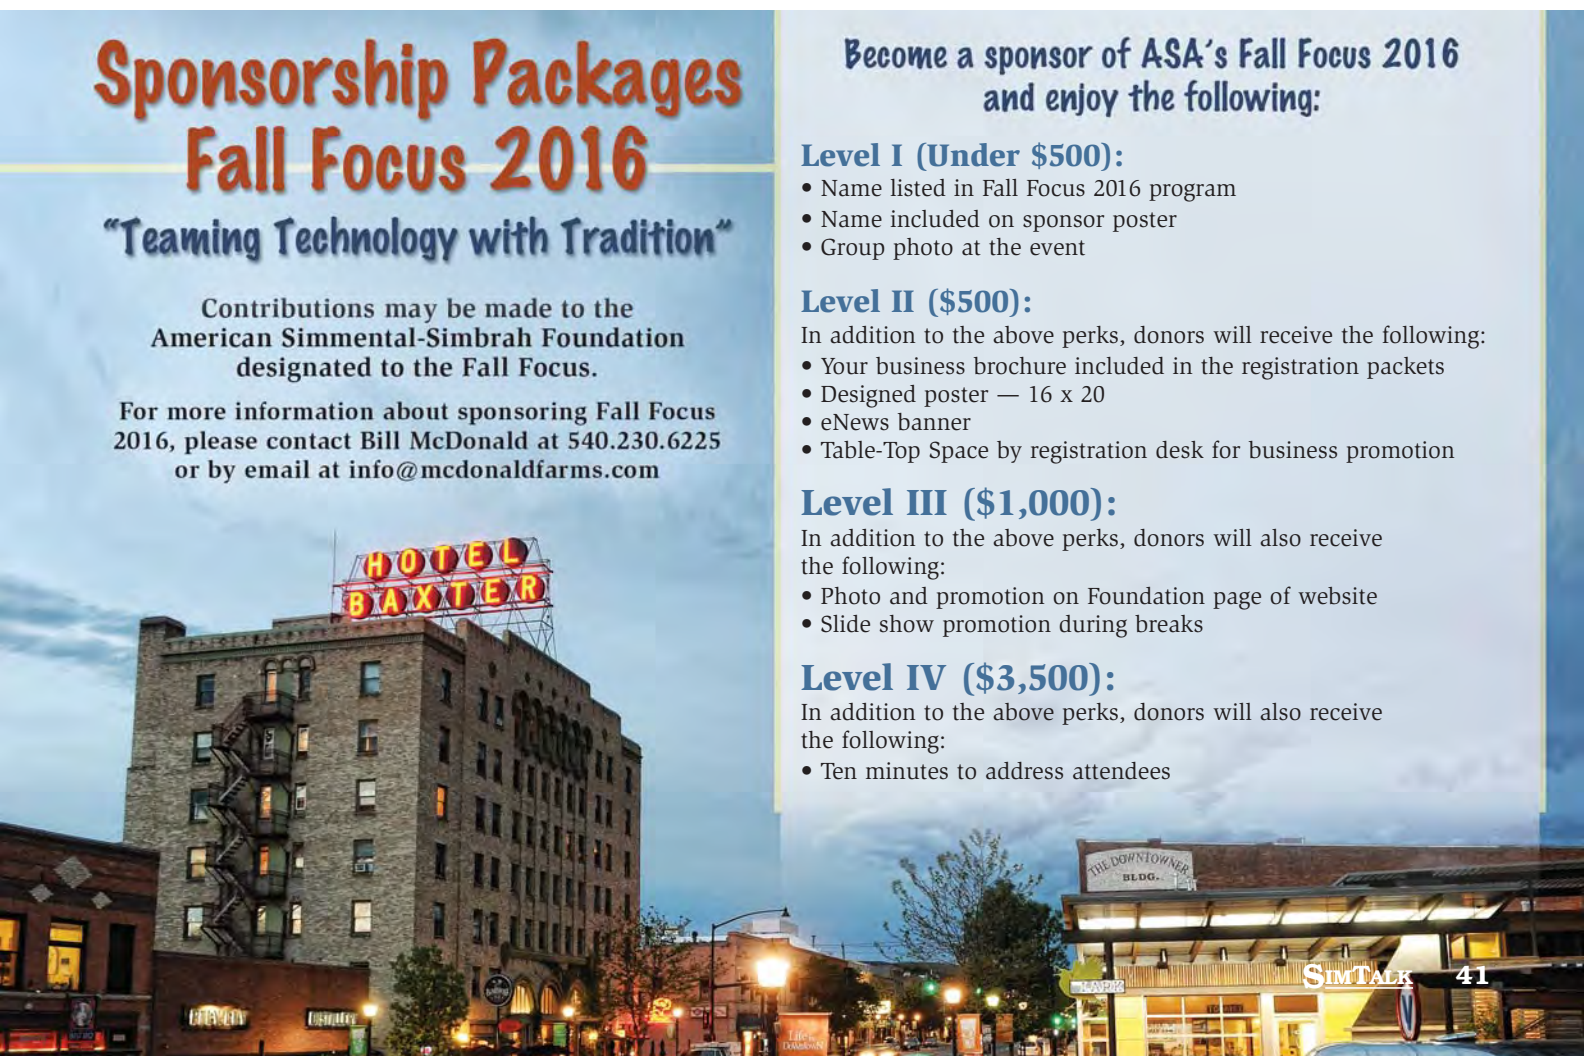

In addition to the above perks, donors will also receive the following:

- Photo and promotion on Foundation page of website
- Slide show promotion during breaks

Level IV (\$3,500):

In addition to the above perks, donors will also receive the following:

- Ten minutes to address attendees

Member Development

Open HerdBook Policy

ASA accepts all data regardless of breed composition. ASA has the largest database ready to accept your records and assist you with making better beef.

Database Collection

One of the primary functions of the ASA is maintaining the database which comprises the animal, breeding and performance records. The database contains more records on cattle including information as ownership, name, identification, pedigree, birth date, weights at different ages, and DNA status. This information is provided to ASA members and non-members. We also maintain a member database which is tied to the animal database. Let a member of our Processing Team assist you in your reporting needs and reports available for making breeding decisions.

DNA – Genetic Trait and Defect Monitoring (TraitTrac)

ASA's genetic defect and trait monitoring policy (known as TraitTrac) utilizes DNA marker tests to identify, monitor and provide information to members and non-members concerning animals that appear to be free of certain identified genetic defects, animals at risk for certain genetic defects, and animals carrying certain genetic defects.

ASA has developed a system to designate an animal's genetic status based on the DNA and pedigree information available to ASA. This status can be viewed from the EPD/Pedigree display from HerdBook Services, Animal

Search. An animal's genetic defect status is determined from information provided to the ASA from recognized laboratories or Breed Associations.

HD and LD Testing for SimGenetic DNA-Enhanced EPDs

For decades, the American Simmental Association has used DNA to verify color, genetic defects and parentage. For the past four years, the ASA has used a DNA test (GGP-HD) that, when incorporated into ASA's genetic evaluation, adds significant enhancement to lower accuracy EPDs. In the last year, members now have a less expensive and nearly as accurate DNA test option called GGP-LD. DNA information is just like adding progeny to genetic evaluation. HD and LD testing advance accuracy without waiting for progeny. What would you pay to progeny test your animals?

Ownership of Records

Record of ownership is tracked, first by the person submitting the record when accepted into ASA's HerdBook (database) and then by breeders submitting transfers (informing ASA that the animal has been sold). ASA recommends that transfers be recorded each time an animal is sold; however, this is only a record of who owns the animal.

ASA's Operations/Processing Team

Left to Right: Emme Troendle, Leoma Wells, Callie Griffin, Jannine Story, Alicia Clements, Carla Stephens, Marilyn Roth, Linda Harris-Bakken, Cindy Newell, Heidi Todd and Marni Wade

ASA's Operations/Processing Team is on the leading edge of records management systems, utilizing the latest in technology to provide accurate, up-to-the-minute analysis of all herd records. The processing team's mission is to provide assistance to breeders interested in advancing their programs to improve cattle production.

Any Customer/Member Service Specialist is able to assist you with your registrations, enrollments, transfers, processing or web/internet support.

**Please call 406-587-4531 and we'll connect you with
the right person to assist you or correspond by email:**

- simmental@simmgene.com** — General processing or questions
- members@simmental.org** — Membership applications, changes, or questions
- THE@simmgene.com** — Total Herd Enrollment
- DNA@simmgene.com** — DNA testing or questions
- ultrasound@simmgene.com** — Ultrasound or barnsheets

Registrations/ Registration Certificates

Registration certificates are an important service. For animal records which meet certain breed and pedigree requirements, the Association issues registration certificates based on the information in the database. A registration certificate is a document that reports information — identification, ancestry, gender, ownership, EPDs and other information.

HerdBook Services

HerdBook Services gives current members access to their own herd data and general information on all animals in ASA's database, pedigree and performance information electronically. General information is available to the public via ASA's website. Check out www.herdbook.org for more information.

Data Reporting

This option gives members a structured way to report or update their own animal records electronically. Edits (checks/validations) are in place to assist members in meeting needed requirements (stated in the Rules and Bylaws) for acceptance into ASA's HerdBook (database).

Membership

Many benefits are included with every membership, including products and services offered exclusively to active ASA members. There are two types of memberships, Adult and Junior. Junior programs are oriented to keep our youth involved in the industry. Membership is open to anyone.

Transfers Mean Opportunity

Transferring the registration certificate from one owner to another represents valuable marketing opportunities.

ASA Performance Advocate

The phrase "we're all in this together" is certainly on the mark when it comes to our genetic evaluation program. Though a top-tier genetic evaluation system requires an engine built on cutting edge technology, that engine will not get us anywhere without fuel — the fuel being data. No matter how high tech the system used to calculate EPDs, achieving high levels of accuracy requires data — lots of data.

To encourage more thorough reporting of performance data, ASA has implemented the Performance Advocate Program and any breeder who meets its requirements are listed annually in *the Register* and on our website as a Performance Advocate — a designation that should carry weight with the industry. The achievement conveys to potential customers that you are serious about performance testing.

- Only members in THE are eligible for the Performance Advocate designation.
- A breeder must submit the following records on 100% of the calves in their herd:

- ◆ calving ease scores
- ◆ birth weights
- ◆ weaning weights
- ◆ yearling weights
- ◆ yearling hip heights
- ◆ ultrasound or carcass measurements

To comply with the program, a breeder is required to submit calving ease scores and calf birth weights for every cow on inventory that calved during that year (whether its calf was dead or alive). From calving on, breeders need to be vigilant about using Calf Removal Codes to achieve Performance Advocate status. If no calf record exists because they have been removed from the herd, the only way 100% compliance can be recognized is by applying the Calf Removal Code to calves which were not in your herd at the time of data recording.

Your level of compliance with the program can be monitored by logging into your account on our website. There you will find graphs indicating the proportion of your calves that have data recorded for each trait listed above. Hopefully, the capacity to easily monitor data submission and public acknowledgement for 100% compliance will increase data flow to the ASA.

ASA Performance

Programs

Total Herd Enrollment (THE):

A cow-inventory-based reporting program, THE requires participants to provide annual reproductive and inventory status on their cowherd. THE is designed to: 1) Improve quality of data submitted for genetic evaluation and 2) Improve and develop reproductive EPDs. The ASA recently added a new option to THE for commercial producers. Commercial operations enroll their females and submit data on their calves and in return the ASA will calculate EPDs on their cow herd — a win-win situation!

There are currently four options offered to members participating in Total Herd Enrollment. Each option is unique and how you enroll/pay for your dams determines how data will be delivered and reported on the yearly calf crop. It is highly recommended to evaluate your individual herd goals to better select the option best suited for your operation.

Total Registration (TR)

- Every dam enrolled on inventory for \$15.00/dam/year
- Calves born in enrollment year and meeting all registration requirements are registered for FREE.
- Performance based EPDs returned on all calves, regardless if they are registered or reported.
- This option fits herds where the majority of the calf crop is registered (>40%) and EPDs are utilized in selection decisions.

Selective Registration (SR)

- Every dam enrolled on inventory for FREE
- Age dependent calf registration fees
 - ◆ Under 10 months of age = \$30.00
 - ◆ 10 to 15 months of age = \$40.00
 - ◆ Over 15 months of age = \$50.00
- Performance-based EPDs returned on registered calves only
- This option fits herds where less than 40% of the calf crop is registered and EPDs are NOT utilized in selection decisions.

No Registration (NR)

- Every dam enrolled on inventory for \$7.50/dam/year
- Age dependent calf registration fees (same as Option B)
 - ◆ Under 10 months of age = \$30.00
 - ◆ 10 to 15 months of age = \$40.00
 - ◆ Over 15 months of age = \$50.00
- Performance based EPDs returned on all calves, regardless if they are registered or reported.
- This option fits herds where EPDs are utilized in selection decisions but registration papers are not necessary on the calves. If you start registering more than 5% of the calf crop each year, take a look at Option A, it might suit your operation better.

Commercial (CR)

- Cost of \$500 per year to enroll plus \$50 membership set-up fee for first timers. This cost includes ASA annual membership fee of \$110.
- If you enter and set up your herd into the database, it is free. If ASA inputs your herd data for you, there is a one-time herd set-up fee of \$2.00 per female on inventory and sires (includes imputing animal, its dam, sire and maternal grand sire).
- EPDs and indexes provided on all females and herd sires, while group average EPDs and indexes are provided on steers. This information provides commercial producers with an unparalleled opportunity to make within herd selection decisions. It also provides producers with valuable information for marketing.
- This option is designed for the commercial producer who is looking to receive EPDs on replacement females through the genetic evaluation.

Are you a Progressive Commercial Producer?

Do you AI or have single sire pastures?
Do you select replacement heifers?
Do you want to make better genetic decisions?

If the answer is **Yes!** Step into the future and become part of the world's largest genetic evaluation system.

Steve Radachuk
Radachuk Cattle Company
Fairfax, Iowa

"Take all in to the ASA and being the first breed association to embrace the entire beef industry by offering a registered evaluation for premier, composite, and crossbred breeders, RSC has used ASA multibreed evaluation since its inception and we couldn't be more pleased. Surpassing yourself with cutting edge people is very rewarding."

ASA's new Commercial Option is for you!

- EPDs and economic indexes on every female and herdshare in your herd... regardless of breed or breed composition.
- EPDs and economic indexes on steer groups.
- Online record keeping, herd management and report generation software.
- Access to a wide array of highly effective DNA technology.
- Best deal in the industry: call for pricing/quotes.

Be progressive and call today: 406-587-4531

Carcass Merit Sire Evaluation Program

ASA's Young Sire Progeny Testing Program

With the first matings at the Sheek Ranch, Cabool, Missouri, in the spring of 1997 the American Simmental Association launched a program that would eventually change the direction and collective futures of all producers and users of Simmental genetics. Then simply known as the Carcass Merit Project, the top sires of the Simmental and Simbrah breeds were randomly mated to commercial females with the plan to collect difficult to get progeny sire group carcass information and sometimes tenderness data. CMP is now entering its 19th breeding season. In addition to information about carcass traits, this program contributes well over 1,000 birth, weaning and yearling weights, and calving ease scores each year and nearly 4,000 shear force records have been collected. While feed intake has been collected in the past, the ASA is working to add intake data annually to the CMP.

The data collected has allowed the ASA to amass substantial information for benchmarking so that performance and value expectations can be conveyed to current and potential customers of our members. From providing confidence regarding levels of calving assistance, all the way to predicting end product value for those wishing to be profitable in the feeding business, ASA can reliably estimate the performance of their genetic products due in part to the information collected on SimGenetic sires tested in these "real world" commercial situations. To date, data have been collected on individuals from 41 different commercial herds in 18 states with steers fed and harvested in nearly every cattle feeding region of the US.

Carcass Merit Sire Evaluation Program

You may ask yourself, who pays for all this? Bull owners commit thousands of dollars each year to get unbiased evaluation for the next generation of genetically influential young candidate sires. This information is important for all SimGenetic users as it builds significant accuracy for economically important EPDs and assists in the early screening for bulls that possess unique levels of trait differential and thus provide maximum selection leverage. Many of the industry's top sires of various breeds and breed combinations are CMP graduates.

Carcass Merit

- ◆ Over 35,000 commercial cows mated
- ◆ 10,000 carcass records collected
- ◆ Average 74% Choice, YG 2.8
- ◆ Complete tenderness data

Calving Ease

- ◆ 4,400 British heifers mated
- ◆ Average Birth Weight 78.6 lbs
- ◆ Elite Simmental calving-ease lines identified and published

Feed Conversion

- ◆ 1,318 sire-identified SimAngus™ progeny test steers
- ◆ Average Dry Matter Feed Conversion 6:3:1
- ◆ Average Daily Gain 3.62 lbs/day

Progress Through Performance

The American Simmental Association's Progress Through Performance (PTP) program reflects an industry reality that producers routinely balance between phenotypic evaluation and scientifically relevant EPD and Indexes. The ASA's sanctioning of worthy shows throughout the country aids in furthering the Association's mission and efforts to highlight SimGenetics to a wide and enthusiastic audience.

New PTP judge applications and all existing PTP judges are reviewed annually by the ASA Board of Trustees Activities and Events Committee (A&E). A&E seeks judges who are effective visual evaluators, appreciate the value of sound science and have a willingness to thoroughly discuss the cattle presented to them. Approved judges are deemed knowledgeable cattle evaluators and aware of the EPD and Indexes used by ASA. The list of PTP approved judges, the PTP judge nomination process and pertinent PTP show information can be found at Simmental.org.

A&E and ASA staff consistently monitor the PTP program and are constantly in search of methods to enhance and elevate the program. 2016 will continue to provide strategic opportunities to hone the program and its alignment with ASA mission and membership interests.

Top 50 — High-Influence Bulls

Historically, the ASA partnered with Dr. Jon Beever (University of Illinois) to test the 50 most popular sires (per year) for the main beef genetic conditions. In 2015, the ASA expanded this testing to include voluntary submission for any AI sires. This program now includes over 300 SimGenetic sires and tested for the following conditions:

- AM** — Arthrogryposis Multiplex (Angus)
- DL** — Dilutor (Hereford)
- IE** — Idiopathic Epilepsy (Hereford)
- NH** — Neuropathic Hydrocephalus (Angus)
- OS** — Osteopetrosis (Red Angus)
- PHA** — Pulmonary Hypoplasia with Anasarca (Shorthorn and Dexter)
- TH** — Tibial Hemimelia (Shorthorn)
- HY** — Hypotrichosis (Hereford)
- CA** — Contractural Arachnodactyly (Angus)
- DD** — Developmental Duplication (Angus)
- OH** — Oculocutaneous Hypopigmentation (Simmental and Angus)

Sale Date:
Family Matters Sale,
September 17, 2016
Southern Excellence Bull Sale
November 19, 2016

In 1997, we started our family-run operation. Our goal is to raise the highest quality of cattle at an affordable price. We are proud to be a part of this industry and encourage the next generation. Feel free to call or stop by anytime. Our doors are always open to for anyone with a passion for the Simmental and cattle industry.

Sale Date:

Field of Dreams Production Sale,
September 11, 2016, Hope, IN
Also selling bulls through
Powerline Bulls, McCook, NE

Harker Simmentals has grown and changed since the 1990s. Substance, structural soundness and quality EPDs with an emphasis on maternal characteristics are a few things the Harker's use as building tools. Today, the operation consists of 150 head of purebred and percentage Simmental females and purebred Black Angus females. Fancy heifer calves are auctioned through the Field of Dreams Sale now held at the Harker's farm. Females purchased through the Field of Dreams Sale are exhibited by juniors from across the country.

WE WANT YOU

To choose your best option!

TOTAL HERD ENROLLMENT

Whether you are a seedstock or commercial producer, ASA has a THE option that will fit your objectives and budget.

ASA's THE dam inventory program has four different enrollment options available, making it easier than ever to find the best fit for your herd.

Genetic evaluation is available on all breeds and breed combinations for both seedstock or commercial producers.

Total
Registration

Selective
Registration

Non
Registration

Commercial
Herd

By choosing one of the THE options you will become part of the world's largest multi-breed genetic evaluation and database.

Contact ASA today
to discuss the best
option for you!

Sale Date:

Right By Design Sale,
November 26, 2016 on the farm

Trennepohl Farms is a diverse family farm operation. For four generations we have prided ourselves on producing some of the finest seedstock genetics and agricultural products anywhere. Through the vision and leadership of our grandfather, Howard, Trennepohl Farms beginnings trace back to some of the greatest bloodlines that the Belgian Draft Horse industry has known. It is that purebred seedstock passion that has laid the foundation for our success thus far.

We are committed to ensuring that our products will be successful for our customers including livestock, grain, hay and straw. Thank you for your interest in our program.

AMERICAN SIMMENTAL-SIMBRAH

F O U N D A T I O N

Foundation Board Members Amp Up Fundraising

To enhance existing programs as well as expanding additional projects, the Foundation is implementing a new model for fundraising — Member Groups. If you have an interest in these special projects and would like to help raise money, contact the appropriate Foundation Board Member for the group you would like to join!

Youth Activities National

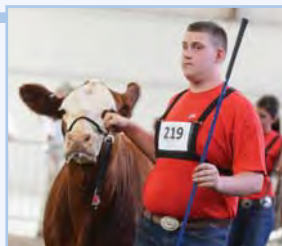

Youth Activities —
National Focus — Merit Awards:
Lori Eberspacher 612-805-8225
ASA Staff Contact:
Linda Kesler 406-587-4531

Dollars for scholars. Established in 1981, the Merit Award is designed to provide recognition to junior members who have made “significant contributions to their community, home, family, school and the Simmental or Simbrah breeds of cattle.” As college tuition continues to increase, the Foundation continues to support 16 AJSA members each year by awarding \$20,000 in scholarships, 11 Silver Merit Awards and 5 Gold Merit Awards, to help them continue their collegiate educational endeavors. Each year a breeder has donated a heifer to the Foundation which is auctioned during the One Sale in Denver at the National Stock Show with proceeds supporting the Merit Award program.

Youth Eastern Region

Youth — Eastern Region Specific:
Fred Swain 502-599-4560
ASA Staff Contact:
Emily Lochner 254-230-8444

Look what we can do together for our Juniors!! The Eastern Regional Classics are working together to see themselves as a unit and not just a group of individual states. An annual fundraising auction is held in conjunction with the NAILE. This funding allows the states to step up more freely and do a Regional Classic with less worry about the financial needs. We have provided \$15,000 to the host states to help support the event.

In the last four years as a result of the generosity of the donors and purchasers about \$50,000 has been raised exclusively for the Eastern Regional Classics. What a benefit to our future and youth!

Youth Western Region

Youth — Western Region Specific:
John Walston 518-851-2000
ASA Staff Contact:
Emily Lochner 254-230-8444

Largely due to the successful fundraising specifically for the Eastern Regional Classic, the goal is now to expand this concept to the other regions. John Walston has taken the lead to begin this project for the Western Region to help members see themselves as a unit and not just a group of individual states.

The primary goal is to have money available to support the Regional Classics in West. Since all of the Western Region states have smaller members in their state association, it can be a financial hardship to host an event. The establishment of this specific fund is designed to provide a financial base to open the opportunity for any state in the West to host the Regional Classic.

Research & Development

Feed Intake Project:

Fred Schuetze 817-894-0563
Bill McDonald 540-230-6225
Gordon Jones 270-991-2663

ASA Staff Contacts:

Jackie Atkins 406-587-4531
Chip Kemp 573-239-0524

Feed Intake Project. The ability to predict differences in feedlot intake of sires' offspring is an important component in the assessment of differences in profitability between sires. The Feed Intake Project will support collecting feed intake data on calves of known sire groups to improve our ability to predict feed intake and thus improve our ability to predict differences in profit. Goal \$30,000/year.

Education

Fall Educational Symposium:

Bill McDonald 540-230-6225
Fred Schuetze 817-894-0563
Gordon Jones 270-991-2663

ASA Staff Contacts:

Jackie Atkins 406-587-4531

Each fall the ASA will host an educational session in conjunction with the fall board meeting. The 2015 session was very successful with nearly 150 attendees. The day-long event featured genetically oriented talks from nationally recognized experts in livestock genetics and animal breeding. Seedstock producers, commercial cattlemen, industry personnel, other breed associations and academics participated in the session and following social. Join us in hosting the 2016 Educational Session by donating funds for this event. Goal \$10,000/year.

General Fund

General Fund:

Fred Schuetze 817-894-0563

ASA Staff Contacts:

Paulette Cochenour and
Linda Kesler 406-587-4531

While most contributions and donations that the Foundation receives are earmarked for a specific fund, we do receive donations that have not been specified. Those funds are designated as "general" and can be used by the Foundation Board to begin other projects as provided for in the Mission Statement. This would include any non-specified donations from the auction in Denver.

Youth National Classic

Youth — 2016 National Classic —

Facility Support:

Linda Kesler 406-587-4531

ASA Staff Contact:

Emily Lochner 254-230-8444

Each year your state associations play host to the largest SimGenetics event in the country, one of the most prestigious youth livestock events, the AJSA National Classic. With each year's National Classic bigger than the last, more and more SimGenetic enthusiasts attend the National Classic and purchase SimGenetics; at the same time, state associations are saddled with a growing financial responsibility in hosting. The American Simmental Association and the American Simmental-Simbrah Foundation are working to lighten the load and ensure many years of AJSA National Classics to come by each contributing \$10,000 for a total of \$20,000 annually to the AJSA National Classic facility cost.

Walton-Berry Graduate Student Support Grant

Dr. Robert Walton

Jim Berry 815-777-1107 (evenings)

ASA Staff Contacts:

Jackie Atkins and Wade Shafer
406-587-4531

Walton-Berry Graduate Student Support Grant supports graduate education with emphasis on genetic improvement of livestock. The fund originally started by Jim Berry of Wildberry Farms, honors Dr. Bob Walton's life-long efforts in animal breeding and raising Simmental cattle. Walton-Berry Graduate Student Support Grant supports graduate education in research programs to directly improve applied livestock genetics and help build future experts in animal breeding. There are two awards — one for \$5,000 and a second for \$3,000 for graduate education programs; each recipient will contribute to ASA Publication regarding their research for both *SimTalk* and *the Register*.

Sire Source Valuable Tool

Sire Source, a publication produced by ASA Publication staff has gained great traction in the world of advertising and promotion of superior beef cattle genetics. The seven-year-old publication is widely respected as an effective vehicle for helping progressive seedstock producers reach prospective buyers.

The most recent edition, included 152 bulls — Simmental, SimAngus™, Simbrah and one Angus. By comparison, there were 136 bulls listed in the 2015 edition, 98 bulls listed in the 2014 edition, 62 in 2013, 59 in 2012 and 52 in 2011, clearly illustrating the increased popularity of this promotional tool.

In addition to distribution to all ASA members and paid subscribers through *the Register*, Sire Source also receives heavy exposure at trade shows, field days and sales throughout the nation and is posted on ASA's website for yearlong accessibility for potential customers. Throughout the year, the Sire Source stays current with the on-line Sire Source, where you can display your photos and videos on-line; link to your website; update your on-line listing anytime. Bull photos are attached to the official animal record in the ASA Herdbook; your bull will be featured in an eBlast during the year. This on-line version has steadily increased the popularity of the print version.

Sire Source users favor the standard format utilized in displaying listed bulls, which allows potential buyers to compare "apples to apples," as every animal is presented in exactly the same format with information laid out on each page in identical fashion.

ASA Trustee Gordon Hodges, who serves as Genetic and Marketing Manager for Gibbs Farms, Ranburne, Alabama, is sold on the concept. "Once the ad is designed, other options, such as e-blasts and additional advertising in *the Register*, *SimTalk* or any other magazine, can be easily placed since they are camera-ready and eliminating the need for designing a new ad," he said.

"The Sire Source is effective, efficient and has a long shelf life," said Simbrah breeder Bill Travis, owner of Pine Ridge Ranch, Athens, Texas. "Not only does it have broad beef industry distribution and appeal, but I've found it to be a home base for seedstock producers."

"It makes no difference how good your bulls might be, if you don't advertise, you will have a hard time selling genetics," Hodges concluded. "The best way to add value to progeny is by promoting the sire from generation to generation. We have found that the Sire Source can be a most valuable tool in our marketing effort." ♦

Contact Nancy Chesterfield at 406-587-2778 or nchesterfield@simmgene.com to promote your bull(s) in the on-line version of Sire Source.

State Associations

Just over a year ago an effort was initiated to enhance the relationship between the ASA and the State Simmental/Simbrah Associations.

Dr. Bert Moore
State Association Liaison
701-541-5035
bmoore@simmgene.com

In 1979, ASA established programs to assist state associations with promotional costs to effectively reach regional markets and provide support for state association activities. State/Regional Simmental Association activities can provide a “grassroots” connection with the American Simmental Association. For that very reason the ASA is strongly interested in connecting with each association

and supports the promotion of the Simmental role in the large scheme of beef production.

The numbers confirm the fact that state associations using the financial resources provided by the ASA have expanded memberships and the popularity of Simmentals in all aspects of the beef industry in their area. We urge the leadership and all members in the State/Regional Associations to study the programs and resources available and design plans to be used for their maximum benefit. **Give me a call and let's work together to make your state association stronger.**

Each state has the option of designating one event per year to which they can have an ASA representative attend. Here again there are a number of options, field days, trade shows, educational events, etc. One event per year comes without cost but additional events can be funded using cost share monies.

Recently, it was found that a number of these associations were not taking advantage of the available ASA funds, and an effort was put forth to contact all association to inform them of the programs and encourage them to take advantage of these promotional monies.

- 36 state and regional associations report their officers to the ASA, and are listed in the annual membership directory issue of *SimTalk* and the ASA website.
- 27 of the 36 state associations utilized the cost share program compared to only 20 associations using it the previous year, but only 10 of the associations used their maximum allowable funds.
- For fiscal year 2014-15 the cost-share funds paid out increased by 34.5% over the previous year.
- Check-off payments increased by 32.5% from the previous fiscal year.

Regular and consistent contact has helped to increase the use of the promotional funding which is available to state associations. Quarterly messages reminding of the availability of check-off dollars has been a good way to keep in touch with these associations. Trustees and area representatives are also

important contacts with knowledge of these programs. It is a privilege to work with the state associations from across the country and find out about their needs and the variety of ways that SimGenetics are working for them.

For the 2014-15 fiscal year the Board of Trustees increased the funding available to each State Association to \$4,000. These funds are available for a wide variety of promotional activities and are detailed at: www.simmental.org

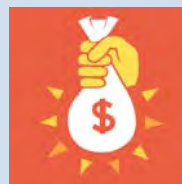

Those State/Regional Associations that have used all their maximum Cost Share dollars (\$4,000) at the end of the 2015-2016 fiscal year (June 30, 2016) are eligible to be allocated and use up to an additional \$1,000 Cost Share funds for SimGenetic promotions during the 2016-2017 fiscal year.

Cost Share:
\$4,000 each year for advertising and promotion.

The **Cost Share Program** is designed to reach regional markets by assisting states in the advertising and promotion of SimGenetics. The Program also provides support for the promotional activities of state associations to help increase their membership as well as their market share. May be submitted all during the year; **deadline for final submission, June 30.**

- ◆ Print Advertising
- ◆ eBlasts
- ◆ Booths and Booth Space
- ◆ Web Development and Maintenance
- ◆ Newsletters and Member Directories
- ◆ *SimTalk* Special Mailings
- ◆ ASA Representation at state events

Check-off Program, paid quarterly and based on animal registrations in your state. The only requirement is for your state association to send us your current list of officers. **Deadline June 30.**

- ◆ Based on animal registrations in your state — 25¢ per animal
- ◆ Current list of officers submitted each quarter — on-line form is available.

Check-off Bonus Bucks, paid annually at the end of the fiscal year. For additional bonus dollars, a state association may submit a report indicating participation in the list of options — this bonus is also based on animal registrations in your state. **July 10, deadline.**

- ◆ Booth and Booth space — 10¢
- ◆ *SimTalk* Sign-up (50 new names) — 25¢

Promotional Material Available for Use

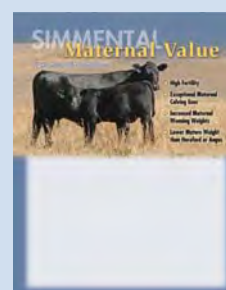

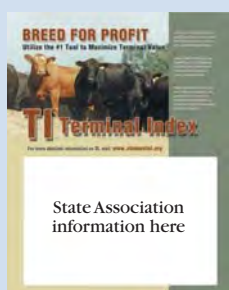

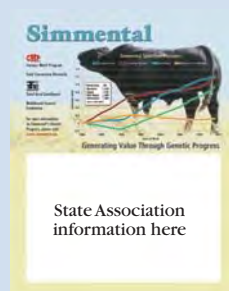

- ◆ Brochures are available for your booth at trade shows.
 - ◆ Only cost to your association is shipping.
 - ◆ Order early to save money on shipping.
- Contact Bert Moore at 701-541-5035.

State Association Ad Templates

Ad templates are available to download for your use. There is no cost attached to this service. The template contains the 50% generic advertising required through the Cost Share program. They are ready to use — just place your state information in the remainder of the ad space (white area), and you are ready to go! Ads designed entirely by you may be accepted if they contain 50% generic advertising and are pre-approved.

Any questions can be answered by calling Bert Moore at 701-541-5035.

Sale Date:
Value Based Genetics Sale, February
4, 2017, Decorah, IA. Herd improv-
ing bulls, females and embryo
matings available at all times.
*Our mission statement has become
simply: "VALUE BASED GENETICS".
Every selection criteria we use has an
economic benefit or cost. Selecting for
phenotype only without considering
feed efficiency, reproductive efficiency,
carcass, or growth would be disastrous
just as ignoring phenotype would
limit marketing. Our goal is to
produce the best females possible by
multiplying proven cow families and
incorporating value parameters on
their performance.*

The American Simmental Association

is proud to sanction high-quality Simmental and Percentage Simmental Progress Through Performance (PTP) shows throughout the country. The PTP program is designed to promote multi-level progress within the SimGenetics industry. PTP shows effectively combine the assessment of statistical data, such as EPDs and actual measurements, with traditional phenotype evaluation.

PTP Judges

PTP approved judges have been deemed as respectable and knowledgeable cattle evaluators by the ASA Board of Trustees Activities and Events (A&E) Committee. To be named as a PTP approved judge, an application must be sent by the applicant or on the applicant's behalf along with two letters of recommendation from current ASA members for review by the ASA Board of Trustees A&E Committee. The A&E Committee approves or denies all applicants. Each year the A&E Committee inspects the list of approved judges and makes modifications when necessary. View the PTP approved judges list at: www.simmental.org

Sale date:

Gold Bullion Group's 15th Annual Sale, March 5, 2017

We have been breeding red and black Simmentals along with SimAngus™ genetics since 1986. We breed cattle that are structurally correct, moderate framed and deep bodied with plenty of muscle. Calving ease and maternal traits are very important as well as carcass quality. However, we will not sacrifice performance as we feel that is a major strength of the Simmental breed. The ranch is located 4 miles east and 5 miles north of Manhattan, Kansas. Feel free to drop by any time to look at our herd or the cattle we are currently offering.

Sale date:

Friday, February 17, 2017

Cow Camp Ranch is a multi-breed seedstock supplier located on the western edge of the Flint Hill grasslands. We have been raising cattle for four generations and have been heavily involved in the Simmental breed since 1970. During that time cross-breeding has become an important and essential tool here at Cow Camp as we have incorporated the Angus and Red Angus breeds into our program. In these days of high market volatility and high-input costs there has never been a bigger need for cattle that will function efficiently and create a high-quality end product that will meet the demands of our consumers. Crossbreeding helps us meet those goals and produces cattle that will work in the real world as well as in the market place.

We invite you to join us in building better beef.

"Proof + Performance = Profit"

It's a Fact!

**The Most Profitable Calf
is the Crossbred Calf.**

Its superior performance, efficiency and combination of carcass traits cannot be matched.

**The Most Profitable Cow is
the Crossbred Cow.**

Her superior longevity, fertility and efficiency cannot be rivaled.

SimAngus™

Don't take our word for it.

The data provided by the USDA through the Meat Animal Research Center shows the clear choice to maximize profit. SimAngus™ provides the hybrid vigor and complementarity necessary to maximize profit both in the cowherd and feeder calf scenario.

Profit Through Science

We do the science, you make the profit.

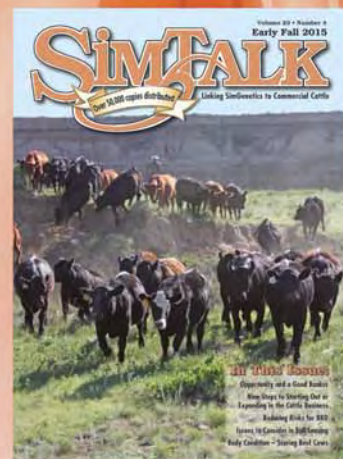

SimTalk

Linking SimGenetics to Commercial Cattle

Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of 50,000+ targeting commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

Dickinson Ranch 45th Production Sale

Saturday, March 25, 2017 1:00 PM

At the ranch, Gorham, Kansas

Selling: 90 Bulls

50 Registered Yearling Heifers

Simmental • SimAngus™ • Angus • Red Angus

Get Genetics that will

**Maximize your Profits!
Optimize your Resources!**

- Smaller framed, big-ribbed cattle with optimum milk production that can function on your available forage with little or no supplemental hay or grains.
- Genetics from a cow herd that is required to calve on the open range, even first-calf heifers.
- Genetics from a cow herd where there are no "free passes". She must calve and rebreed on grass with no human help. No excuses. No pets!
- Genetics from a cow herd that stress longevity. 13-15 year old cows still raising calves on minimal inputs. These are genetics from proven females not from over-pampered flush cows that may have had 1 or 2 natural calves.
- Genetics from low input females that are also proven for carcass traits and value.
- Big ribeye bulls with above-average marbling and tenderness.
- Genetics from a herd that has for 40 years selected for feedlot gain and feed conversion.

Low Maintenance with Longevity

EPDs as of 5.13.16

Simmental

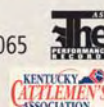

- Sure Value has 13 EPD traits in the top 25% of the breed.
- Top 2% for \$API at 158.
- Top 5% for weaning and the 10% for yearling.
- Genomic enhanced EPDs 80K tested.
- He puts all positives together for today's market place in the seedstock business. Many faithful and predictable animals in his pedigree.
- Sure Value is attractive and complete and worth sampling today.
- We anxiously wait for his progeny.
- His dam was the top heifer in the 2012 calf crop at 102 River Ridge Cattle Co in Iowa.
- Watch for his progeny in future Belles and Bulls of the Bluegrass sales.
- Stop by anytime when in the area.

Semen: \$25/unit

Beyond the Bounds of Print

An extended electronic version of *the Register* going beyond the bounds of print to delve deeper into the stories of Simmental and SimGenetics' producers, programs, and happenings.

Looking back on the moments — the memories — those were the days. Back in 2008, ASA celebrated 40 years of commitment to the success of our members. *SimTalk* ran a special chronological history detailing the strides ASA has made to meet the

goal for maintaining and nurturing services and products . . .

ASA's New Website — A Have you heard the buzz? The American Simmental Association has a new website! The redesign of the ASA's informational website is mobile friendly for phones and tablets. It features a

consolidated navigation system making it easy to find the information you need throughout the website. New features to look for: Easy to find contact. . .

An Unprecedented Collaboration — In the first few decades of national cattle evaluation, universities performed evaluations for the beef industry. The universities largely underwrote the research and development, establishing the software and the methodology to advance genetic evaluation for the beef breeds," said Wade Shafer, CEO of ASA, when asked about the origins of International Genetics Solutions (IGS). "In the mid 2000s, DNA became the focus for universities, and traditional genetic evaluation . . .

Maternal value comes *FIRST*

Genetics customers deserve profit improvement with no surprises when it comes to performance and convenience. All cattle must be fertile, calve easily, grow fast and efficiently and provide product value up and down the beef chain.

Longevity traits like feet, udders, disposition are also non-negotiable. If you aren't getting all of that and more from your seedstock provider, give us a call. You really do deserve to have it all.

Lynch Farms is a family farm located just south of Mankato, MN on Hwy 83. We are a purebred Simmental and SimAngus™ cattle operation producing genetics for both registered and commercial producers alike. Please contact us with any questions you may have or stop by our farm for a visit. "Like" us on Facebook to see what's going on at the farm!
www.facebook.com/LynchLoneOak

Watch for calves from our new sire, GLS Captain C104!

Are you a Progressive Commercial Producer?

Do you AI or have single sire pastures?

Do you select replacement heifers?

Do you want to make better genetic decisions?

If the answer is **Yes!** Step into the future and become part of the world's largest genetic evaluation system.

"Hats off to the ASA for being the first breed association to embrace the entire beef industry by offering a multibreed evaluation for purebred, composite, and crossbred breeders. RCC has used ASA multibreed evaluation since its conception and we couldn't be more pleased. Surrounding yourself with cutting edge people is very rewarding."

*Steve Radakovich
Radakovich Cattle Company
Earlham, Iowa*

**We do the Science.
You Make the Profit.**

ASA's new Commercial Option is for you!

- EPDs and economic indexes on every female and herdsire in your herd . . . regardless of breed or breed composition.
- EPDs and economic indexes on steer groups.
- Online record keeping, herd management and report generation software.
- Access to a wide array of highly effective DNA technology.
- Best deal in the industry: call for pricing/quotes.

Be progressive and call today: 406-587-4531

Sale Date:

15th Annual Carcass Performance
Partners Bull Sale, March 11, 2017,
Lucedale, MS

Our bulls keep getting better and better each year. That's what they are supposed to do if we are breeding our cows to the right AI sires. Many large herds keep all their bulls to have enough bulls to have a sale on their farms but their tail-end bulls are not as outstanding. We offer only our best. The lower quality calves meet an appointment with a pocket knife – so we can offer you a bull that is a top-end bull with all the performance, calving ease, disposition, carcass traits and maternal traits you are looking for that will make your calves more profitable. Our group of smaller breeders do just that, cut the bottom end – grow out the best to bring to Lucedale!

Sale Date:
Carcass Performance Partners
15th Annual Bull Sale,
March 11, 2017, Lucedale

We have been in the registered cattle business since 1997. We are actively cross breeding to obtain the optimal beef bulls and heifers that will work well in the hot and humid southern climate and still have excellent carcass traits.

Our Registered Full Fleckvieh Simmental farm was started in 1994. It is based on the belief that Fleckvieh-influenced cattle provide valuable carcass quality and yield in today's beef market. We have a variety of offspring to offer including red, black, and polled. Our breeding program uses both top AI sires and hybrid herd sires. Disposition is very important to us in our selection process. We are members of the Fullblood Simmental Fleckvieh Federation and American Simmental Association. Our farm utilizes the (THE) Total Herd Enrollment Program with the American Simmental Association.

Sale Date:
Bulls are sold privately at the farm.
Private treaty female sales plus
Wild Wild West sale in Denver
in January.

At **Oval F Ranch**, we believe in sound
productive, big-bodied cows that can
have a calf and raise it. We use EPDs
to help improve economical traits and
appreciate productive females with
eye appeal. Since 1971, we've been
serious about breeding quality Sim-
mentals with COW POWER production
in mind. We have turned 17 genera-
tions in our leading cow families using
AI. WE'LL SHARE! Visitors Welcome.

Sales Call

A bi-monthly
electronic announcement
of upcoming sales for
ASA Publication advertisers.

If you have recently advertised in **the Register** or **SimTalk**, you are automatically included in **Sales Call** for the month prior to your sale, and is broadcast to over 5,000 subscribers. **Sales Call** announces the date of your sale, location, provides a link to your sale catalog or website and a map.

Consider one of these packages to promote your sale.

Package 1

Sale Announcement Option.

Price: \$550

- ◆ One-year business card ad placement in *the Register* or *SimTalk*.
- ◆ One eBlast announcement prior to your sale.
- ◆ Sale announcement in **Sales Call** one month prior to your sale.

Package 2

Advertising Package Option.

Price: \$2,000

- ◆ One-year business card ad placement in *the Register* or *SimTalk*.
- ◆ One eBlast announcement prior to your sale.
- ◆ Two full-page ads in *the Register* or *SimTalk*.
- ◆ Link your sale to website.
- ◆ Sale announcement in **Sales Call** one month prior to your sale.
- ◆ Must purchase package in advance of your sale — ads can be placed throughout the fiscal year.
- ◆ Package can be modified.
- ◆ Other packages available.

Interested in either of these options? Contact:

Sale Date:

The Gathering at Shoal Creek,
April 1, 2017

Shoal Creek Land and Cattle is located in Excelsior Springs, MO, just a short drive outside of Kansas City. We are a purebred cattle operation producing Simmental, SimAngus™, and Red Angus genetics for both the registered producer as well as the commercial industry. Take some time to browse our site and if you have any questions please contact us, or better yet stop by the ranch. We have an "Open Gate" policy, visitors are always welcome. And don't forget to "Like" us on Facebook for regular updates on sale offerings and what's going on at Shoal Creek.

SIMMENTAL

Power of Science.

Perhaps no organization has more effectively leveraged the power of science to make better cattle and better beef than the American Simmental Association.

Our Commitment to the Beef Industry.

Committed to data collection and performance-enhancing programs to provide better tools for beef producers.

Focused on science and research to continue advancing technology.

Begger's Diamond V

Two-year-old
heifer with
a seven-
month-old
bull calf

At Begger's Diamond V Ranch the rancher comes first. Our focus is to raise homozygous black homozygous polled Simmental, SimAngus™ and Angus seedstock that calve easy and have the genetics that work for the cowmen and women who raise them. Our cattle are easy-keeping, sound, and low-maintenance, these cattle need to be excellent uddered and possess pigment on their teats. We don't tolerate wild, nervous cattle and you shouldn't have to either. At Begger's Diamond V Ranch we offer over 180 high-quality breeding bulls that have passed our rigorous culling program. You can be confident that your purchase will be guaranteed to satisfy the most demanding cowman's needs. You bet they calve easy, weigh heavy at weaning, and don't need pampering to survive. These cattle work in tough environments and excel in profitability (feeders and packers love them). They are more than a pretty set of EPDs.

Plan to attend our 41st Annual Production Sale February 1, 2017, where over 70 long-age 18-month-old and 100 stout yearling bulls sell, every one black and polled and all ranch-raised in an environment that separates cattle that become problematic; yes they are backed by a guarantee second to none.

Big Sky Genetic Source Bull Sale

Wednesday, February 1, 2017, 12:30 PM • at the ranch, Wibaux, MT

Bull Sale, February 28, 2017

Settled between the Highwood and Little Belt mountains, **Hill's Ranch Simmentals** is proud to call central Montana home. We have been raising Simmentals since 1969 and find them to be the best type of cattle to meet our goals of providing an excellent beef product. From the beginning, Hill's Ranch has focused on calving ease, maternal and growth traits. Now as we look into the future, the goal is to also incorporate exceptional carcass and tenderness traits. Come join us in March for our annual bull sale. Females are also available so stop in any time to view our cattle. The coffee pot is always on.

Bulls of the Big Sky,
February 20, 2016,
Billings, MT

We are a family owned and operated business. Jeff and Shere began raising cattle together in 1985, now joined by son, Shane, and his wife, Katie and grandson Taylor. Koch Cattle is looking toward a strong future in the Simmental cattle business for years to come. Shane started our Simmental herd with the purchase of a Simmental heifer to show in 4-H. From a strong foundation of Angus cows, our expansion into the Simmental, SimAngus™, and Angus cattle has grown and will continue to grow. Koch Cattle uses AI sires to produce cattle with the focus on maternal and carcass traits to produce well-rounded functional cattle. We produce bulls and replacement females for the commercial buyers and the seed stock producers. Koch Cattle is blessed to be one of the breeders in the Bulls of the Big Sky group. Koch Cattle is represented by our herd bull "Koch LC Monte 803U" and new herdsires Hooks Beacon 56B, and LRS TenX Excellence 352C.

Find us on Facebook Koch Cattle.

**The right bull choice can either make
or break your future.**

Are you choosing your sires wisely?

At Herbster Angus Farms, we diligently search out and breed bulls that improve the industry by increasing fertility, doability, maternal instincts, weaning excellence and yearling performance. Committed to providing the best genetics, our bulls are designed to outperform any other sire in the market both in the pasture and on the American consumer's plate.

For a total sire lineup, visit our web page at www.herbsterangus.com.

SAV Sensation ~ AAA 18258149

*Our \$950,000 valuation
phenotypic masterpiece*

Our \$400,000 High Caliber is a truly outstanding, sound individual with a moderate birth weight, excellent weaning and yearling performance and balanced EPDs. He puts it all together and is an outcross to many modern Simmental genetics. Contact Mike Hartman, (402) 440-6825, for information on ordering packages of High Caliber semen.

TJ High Caliber ~ ASA 2891465

*Purebred Simmental
Homozygous Polled ~ Homozygous Black*

Consignor to Ladies of the
Valley Female Sale –
October 16, 2016,
West Point Sale Barn,
West Point Livestock, NE

At J&C Simmentals we believe quality and performance are more important than percentage. We offer quality bulls from purebred to 1/4 blood for both the registered producer as well as the commercial cowman. We guarantee our bulls and feel confident you will find something in the offering that will fit your needs. Our females are fancy, high-performance females that will fit any operation. Stop by anytime and we'll be happy to discuss cattle and the cattle industry with you.

Western Cattle Source

Your source for Quality Black and Red Simmental, SimAngus™ and Angus Seedstock and Semen

We have an outstanding selection of Purebred Simmental and SimAngus™ bulls and females. This is the highest quality of seedstock from top to bottom ever offered by WCS. We have seen a tremendous increase in demand for Simmental-cross cattle. People are looking for that little extra punch in their calves whether it be in the feedlot or in the females they are keeping.

It pays to own high-quality livestock that will add pounds to your calf crop and leave tremendous females.

Stop by and take a look or give us a call to visit about how our program can benefit your operation.

BREED FOR PROFIT

Utilize the #1 Tool to Maximize Genetic Improvement

Proud Partner

IGS International Genetic Solutions

www.internationalgeneticsolutions.com

We Collaborate. You Profit.

SimGenetics

PROFIT THROUGH SCIENCE

American Simmental Association

All Purpose Index API

Designed to work best when selecting sires for use in herds that retain replacements and culled females: steers are finished and sold grade and yield.

Uses USDA technology and CattleFax price projections to predict profit differences between sires in units of \$ per exposed female.

ASA establishes API to be the most effective selection tool available to commercial producers working to improve their genetics and ranch profitability.

For more detailed information on API, visit: www.simmental.org

Scientific and Technical Advancements

The science of genetic improvement is at the core of ASA's very existence.

Multi-Breed Genetic Evaluation/EPDs

ASA's multi-breed genetic evaluation system has the distinction of being the world's first and the world's largest. Although we have been running and refining our system since 1997, we entered an entirely new realm of genetic evaluation in 2014 with Operation Quantum Leap

Operation Quantum Leap

A collaborative effort between the ASA and world-renowned geneticists Bruce Golden and Dorian Garrick of Theta Solutions, LLC, to build new genetic evaluation software. The next-generation software, collectively known as Biometric Open Language Tools (BOLT), is flexible yet extremely powerful. BOLT contains all the tools needed to prepare, assemble, solve and analyze problems common in computational animal breeding and quantitative genetics, including genomic evaluation. It utilizes high-performance sparse matrix methods, parallel computing techniques (multi-core and multi-GPU) and shared memory management to efficiently solve problems with millions of records. Leveraging technology built for the computer gaming industry, BOLT boosts computer performance to spectacular levels. What takes days to run with our current software takes only hours with BOLT. Our goal is to fully implement BOLT in 2016, with improved techniques for computing accuracies and handling genomic data and EPDs from other breeds and with more frequent genetic evaluations.

Though important, software is only part of an effective genetic evaluation system. To achieve highly accurate EPDs, genetic evaluation systems require large amounts of quality

data. With over 16 million records from the American Simmental, Red Angus, Maine-Anjou, Chianina, Gelbvieh, Limousin and Shorthorn associations, as well as the Canadian Simmental, Angus, Gelbvieh, Limousin and Shorthorn associations, our multi-breed database is the largest in the world and continues to grow at the rate of 340,000-plus records annually.

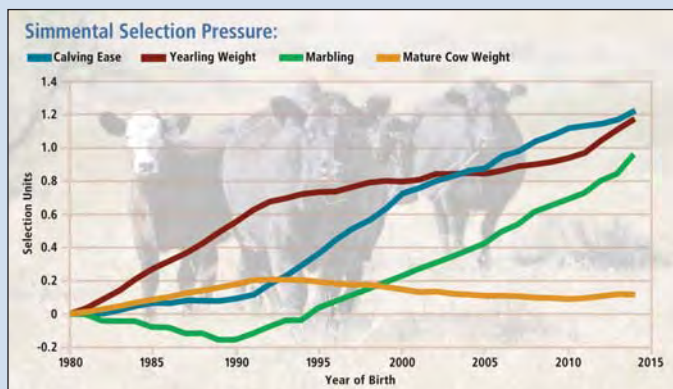

Genomic Evaluation

The ASA produced the industry's first set of genomically enhanced EPDs (GE-EPDs) in the fall of 2004 for Warner-Bratzler Shear Force (tenderness). Eight years later the ASA leveraged advancements in single nucleotide polymorphism (SNP) technology to produce GE-EPDs for all other traits. The number of genotypes in the evaluation database has increased significantly, growing from 2,703 samples in 2011 to over 50,000 in November 2015. Scientists at Iowa State University, led by Dorian Garrick, executive director of the National Beef Cattle Evaluation Consortium (NBCEC), periodically analyze the genotypes only to confirm that, for many traits, incorporation of DNA test results into ASA's multi-breed genetic evaluation system adds a significant amount of information, improving accuracy of predicted genetic merit on young animals, and in turn providing the opportunity to increase rate of genetic change within the population.

Economic Selection Indexes

To ratchet up our genetic evaluation capability, the ASA teamed up with retired USDA geneticist Mike MacNeil to develop the all-purpose and terminal dollar indexes, \$API and \$TI, respectively. The result of well conceived, rigorous mathematical computation, these indexes blend EPDs and economics to estimate an animal's overall impact on profitability. Used extensively in the swine, poultry and dairy industry for many years, indexes allow breeders and commercial cattle producers to make more accurate decisions than ever before when selecting seedstock.

Partners in Research

The ASA leverages expertise from many of the nation's top research institutions. Over the last few years, ASA has participated in research projects with Iowa State University, Montana State University, University of Illinois, Colorado State University, University of Missouri, University of Nebraska, Cornell University, University of Idaho, Oklahoma State University, Kansas State University, University of Vermont, NBCEC, USDA Fort Keogh and USDA Meat Animal Research Center.

In the fall of 2015, the ASA hired genomicist Dr. Mahdi Saatchi in partnership with Iowa State University to keep ASA in the forefront of genomics research. Dr. Saatchi's extensive training and experience in the area of genomics add a very powerful dimension to the ASA genetic evaluation team, further cementing ASA as a leader in the world of genetic evaluation.

Commitment to Accurate EPDs

■ Total Herd Enrollment (THE):

A cow-inventory-based reporting program, THE requires participants to provide annual reproductive and inventory status on their cowherd. THE is designed to improve quality of data submitted for genetic evaluation

and improve and develop reproductive EPDs. The ASA recently added a commercial option to THE. Commercial operations can enroll their females and submit data on their calves. In return, the ASA will calculate EPDs on their cowherd — a win-win situation!

■ Carcass Merit Program (CMP):

We have collected data on steers from nearly 50 different herds fed and harvested in nearly every cattle-feeding region in the U.S., adding over 10,000 carcass records to our database. The improved accuracy in carcass trait EPDs is valuable not only to the bulls enrolled in the CMP but also to the Simmental breed at large. In 2015, the ASA started collecting feed intake data on CMP calves, which will be combined with DNA marker data to better predict genetic merit for this elusive trait. The American Simmental-Simbrah Foundation is funding this long-term project and is seeking donations to cover the annual expense of data collection.

Interesting Facts:

Genetic Evaluation Database

- ◆ 16.3 Million Records in the Multi-Breed Genetic Evaluation Database:
 - American Chianina Association
 - American Gelbvieh Association
 - American Maine-Anjou Association
 - American Shorthorn Association
 - American Simmental Association
 - Canadian Angus Association
 - Canadian Gelbvieh Association
 - Canadian Limousin Association
 - Canadian Shorthorn Association
 - Canadian Simmental Association
 - North American Limousin Foundation
 - Red Angus Association of America
- ◆ 375,000+ Animal data growth rate per year

ASA Database

- ◆ 5.1 Million Animal records in ASA's database
- ◆ 97,000 Active cows enrolled annually in Total Herd Enrollment (THE) by ASA members
- ◆ 1,873 Active ASA members committed to Total Herd Enrollment (THE)
- ◆ 71,816 Registrations issued in the last year
- ◆ 34,601 Transfers processed in the last year
- ◆ 6,770 Active adult and junior members

The Key to Success — ASA Members' Commitment to Genetic Improvement

Cutting-edge technology by itself does not guarantee progress — it must be used. Perhaps no other breed has made as much genetic progress as Simmental. Not only does Simmental deliver on the traditional strengths of maternal and growth traits, research by the USDA Meat Animal Research Center (MARC) has established Simmental as a leader among Continental

breeds for direct and maternal calving ease, marbling and every measure of efficiency quantified at MARC. The MARC data are a testament to ASA members' willingness to roll up their sleeves and use sound scientific principles to breed better cattle and produce better beef.

GENOMIC-ENHANCED EPDs—FIND THE BEST FASTER!

The Simmental, SimAngus™, Simbrah and SimAngus HT Genomic Profile is now available from the American Simmental Association (ASA) through its partnership with GeneSeek®.

Genomic-enhanced EPDs (GE-EPDs) provide:

- **Confidence:** The ASA GeneSeek Genomic Profiler™ (GGP-HD) was developed by a team of scientists using almost 3,000 genotypes and millions of phenotypes.
- **Accuracy:** When paired with ASA's multi-breed genetic evaluation, test results increase the EPD accuracy on Simmental, SimAngus, Simbrah and SimAngus HT animals.
- **Simplicity:** Along with adding EPD accuracy, a single DNA sample can provide information on parentage, genetic defects, coat color and horned/poled status.
- **Value:** At \$90 for 80K technology and parentage, the ASA profile is one of the best values in the business.

ARE HORNS IN YOUR FUTURE?

Introducing GeneSTAR® Horn/Polled from Zoetis—to take the guesswork and legwork out of determining heterozygous and homozygous polled genotypes in Simmental seedstock.

- Available as a standalone test, or at a reduced price as an add-on with SireTRACE®
- Tested homozygous polled seedstock generally command premiums
- Help eliminate horns from your commercial bull buyers' futures through documentation of Horn/Polled genotypes in Simmental seedstock

ASA Membership

Consider joining the American Simmental Association.

We take our mission statement seriously and pride ourselves in the programs we have available for your advantage, and our friendly customer service staff are just a phone call away — 406.587.4531 or by email: simmental@simmgene.com.

MISSION statement

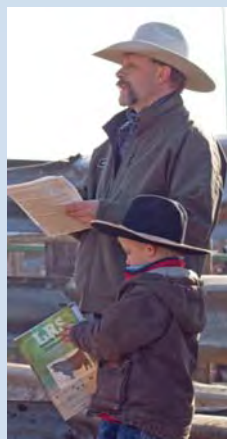

“The success of the American Simmental Association is dependent on the success of our members. In turn, our members’ success is dependent on their cattle making an important and significant contribution to the beef industry. Our highest priority is to maintain and nurture services and products which bring value to ASA members’ customers.”

VISION statement

The American Simmental Association believes the best way to serve its members, its members’ customers and the beef industry is through continual improvement and use of genetic and associated technologies. As such, the Association will continue to be a worldwide leader in the development and integration of these technologies for the beef industry. The Association will initiate and foster relationships with like-minded entities to enhance our ability to achieve this objective. The Association will be widely recognized as having an unyielding commitment to scientific principles and as a hub for the industry’s most progressive seedstock producers — an organization that is extremely cooperative with all facets of the industry and tirelessly devoted to the success of its members and its members’ customers.

Core Policies

1. Development, registration and promotion of SimGenetics.
2. Offer services relating to all beef production segments. Be leaders. Step outside the traditional services and offer opportunities for our members to grow in the industry.
3. Commitment to science and development of the most effective selection tools.

Advance ASA in the industry.

4. Commitment to partnerships with industry leaders and universities to advance research and science. Advancing selection tools, DNA-enhanced EPDs and monitoring genetic defects.
5. Promotion and marketing to enhance our members’ market share. Ensure that SimGenetics continue to appeal to the commercial industry.
6. Offer the most advanced genetic evaluation services with the largest database regardless of breed.
7. Financial stability using sound business practices. ASA will maintain sufficient financial reserves to assure leadership in the beef industry, funds for continued research and development, and a thriving breed association.
8. Support junior programs. Guide the junior membership and their programs to learn life skills, science and use of technology, and financial responsibilities. Involve the Foundation.
9. Education for members’ advancement and profit.
10. Membership and data growth.

Become involved with progressive, innovative breeders like you through membership with the American Simmental Association.

ASA membership provides:

- ◆ Access to world's largest multi-breed data base and genetic evaluation.
- ◆ Venues for interaction with progressive, innovative breeders like you.
- ◆ Educational/Informational opportunities through print and electronic blogs to keep you up-to-date. *SimTalk*, *the Register*, *ASA Science*, *tReg*, *Have You Herd?* blogs to name a few.
- ◆ Thriving State Associations to connect you with like-minded breeders.
- ◆ Data and programs to use which will help your operation thrive.
- ◆ TraitTrac — designed to trace genetic defects.
- ◆ ASA's Operations/Processing Team — customer service team ready to provide assistance.
- ◆ ASA's dedication to provide assistance to breeders interested in advancing their programs to improve cattle production.
- ◆ Open HerdBook Policy — accepting all data regardless of breed or breed composition.
- ◆ Structured tools for reporting and updating animal records to assist in better record-keeping and complete records.

Do you want to maximize genetic profitability on your ranch?

Gain the ASA advantage by using

◆ The world's first, largest and most powerful multi-breed genetic evaluation

Fueled by data from 12 progressive breed associations across the United States and Canada that combine for over 16,000,000 total animal records with over 350,000 new animals added annually.

◆ An industry-common EPD base

Direct across-breed EPD comparisons simplify and allow for more effective crossbreeding decisions.

◆ Economic Selection Indexes

Long accepted by animal geneticists and competing meat animal species as the most effective means of utilizing EPDs to maximize profit.

Promotion & Marketing

Chip Kemp

Director of Member &
Industry Relations
573-239-0524 •
ckemp@simmgene.com

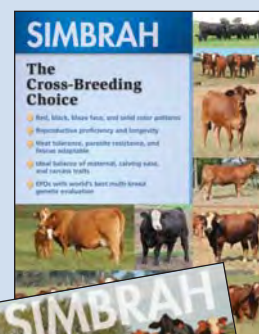

unique collaborative measures are always being reviewed and updated to reflect the mission of ASA and its members.

ASA continues to strive for a Promotion & Marketing campaign that is adaptable and effective across a variety of platforms.

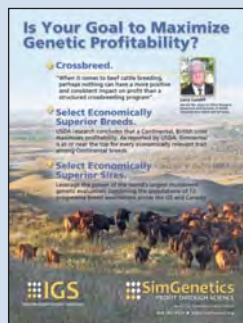

The primary focus of this effort is to inform our membership and the beef industry as a whole of our programs and the impact those programs are having across the industry. At the same time, a major secondary focus is to increase application of science-based technologies and approaches in all facets of beef production. This takes a cohesive, yet tailored approach that reflects different venues and different audiences. Print advertising, continued enhancement of our multimedia efforts, app-based promotional work, and

Samples of brochures for distribution at national and regional events.

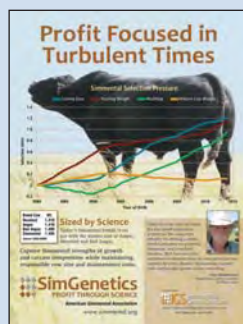

Samples of full page and half page advertisements placed in national and regional publications, plus the Register and SimTalk.

Advertising

Advertising is no longer limited to print media. Advertising is a larger campaign that better leverages our resources. From ad slicks for national publications to the online or print readership of *SimTalk* and *the Register*, from in-house produced sale flyers to corresponding eblasts, ASA's advertising efforts involve multiple layers to add value to SimGenetics and our customers.

Advertising is also increasingly customized to have the desired result at the most reasonable price point. Ongoing reviews of current marketing campaigns and strategies, continual development of materials that are in line with current industry topics and concerns, and collaborative efforts with International Genetic Solutions (IGS) partners when prudent are always front and center for ASA.

Multimedia

Multimedia continues to provide ASA unique methods for outreach and promotion. A robust lineup of websites:

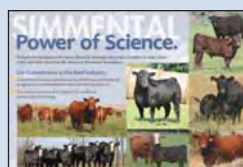

- simmental.org
- internationalgeneticsolutions.com
- fallfocus.org

ASA Mobile App

All of these websites, provide relevant and timely updates and information. Increasingly, these resources also share video testimonials, educational and industry related talks, and interactive portals regarding the latest scientific topics impacting ASA members and our industry.

Multimedia also allows ASA to adapt to the latest technologies available. Whether it's the "in your pocket" convenience of the ASA Mobile app or the cooperative work with DVAuctions to produce highly effective SimGenetic testimonial videos to be shared through many platforms, ASA staff is constantly considering novel manners of relating to the membership and the larger industry.

Trade Show Booths

Trade show booths are a tried-and-true method of reaching SimGenetic enthusiasts and helping develop relationships with new SimGenetic users and customers. ASA develops attractive booth displays that garner attention at a wide array of trade shows on an annual basis.

4-panel booth developed to be used by ASA at national conventions such as NCBA.

Samples of pull-up booths used by ASA Representatives at sales, shows and regional events.

State Association Support

State association support is a major focal point for ASA staff. Passionate breeders and state associations are vital to the success of both sharing the industry changing strengths of SimGenetics and expanding the utilization of Simmental and Simmental hybrids. It is ASA's job to aid the state groups in this effort.

ASA has two programs for state association participation:

- **Cost Share:** The Cost Share program provides reimbursement funds for state association advertising and breed promotion.
- **Check-Off:** The Check-Off program is an incentive-based reimbursement calculated on animal registrations within each state.

For more detailed information check out pages 66 and 67 or visit www.simmental.org.

ASA's primary function is to develop the best tools for genetic improvement possible.

This is a role the Association takes very serious and, as a result, has developed the strongest genetic evaluation in the industry along with other genetic selection tools that accompany that genetic evaluation. Many of the members and their customers have adopted and implemented those tools and technologies and, as a byproduct, have created some of the best cattle in the world. Although the American Simmental Association is not a feeder calf marketing company, they have done what they can to express the genetic superiority of the cattle that are a result of the adoption of the mentioned technologies.

Some of the feeder calf marketing efforts include:

- Established feeder calf sales highlighting the respective genetics.
- Connecting buyers who recognize this genetic value with ASA's members' customers.
- Developing new means of genetically evaluating feeder cattle.
- Providing representation at feeder calf sales to assist in highlighting and representing the genetics being marketed.

Sample of advertisements placed on Superior Livestock Auction's online platform.

Bata Brothers Simmentals is a family run operation in NE North Dakota that consists of Joe and his sons, Chris and Mark. Together we run about 130 purebred Simmental cows along with a large grain farming operation growing wheat, pinto beans, soybeans, barley, and corn. We use extensive embryo transfer and AI to provide cattle with performance and natural calving ease for both the commercial and purebred breeder alike. We enjoy having our sale with Olafson Bros. and think our cattle complement each other very well. Feel free to contact us any time.

We are located on the western edge of the Red River Valley in northeastern North Dakota. Our family partnership was formed in 1968 with four brothers as partners: Dean, Robert, Roger and Curtis. Dean and Robert have since retired, and Roger and Curtis continue as partners. Our operation is head-quartered on the 1/4 section of land homesteaded by our grandparents in 1883, when they came from Iceland and started out in North Dakota with only 65 cents left in their pockets.

We focus on using genetics that bend the curve by providing excellent calving ease and high performance.

Annual Sale:

Bull and female production sale. Open Heifers, Semen, Embryos, Flushes, and Donor Prospects available at all times by private treaty.

We firmly believe that successful bloodlines start with the very basics. A mother cow that has a trouble-free foot and leg structure and a sound udder to ensure longevity is of utmost importance. There is nothing more disappointing than to have a four- or five-year-old cow that may have the phenotype, EPD profile, and production records that we strive for but has a foot or udder issue that requires us to move her out of the registered cow herd. Herd Sires are under even higher scrutiny because of the huge impact they have in moving our genetics in a positive direction. Sires are evaluated on structural and hoof soundness, pedigree, dam production records, individual EPD potential and eye appeal. With all that being said, we passionately believe in producing animals that are appealing visually and at the forefront of EPD and genetic progress.

North Dakota Simmental Association

*Still committed to the aims and objectives
that started the Association in 1970.*

- The development and promotion of the Simmental breed of cattle in North Dakota.
- Show how the Simmental breed can make an important contribution to the cattle industry in North Dakota.

Sale date:
Bull and Female Sale
January 27, 2017

Terry Ellingson and father, Trueman, began **Ellingson Simmentals** in 1990 with the purchase of foundation females from Kenner Simmentals of Leeds and Marvin Ritz of Almont. Through use of embryo transfer and artificial insemination, the herd has grown to 120 brood cows of both black and red color. The goal has always been to produce high-performance cattle with calving ease, high carcass traits and functional females. Sires that have had national impact on the breed include Black Perfection, Olie, Ideal, Klondike and Dominator. Our farm is located in northeastern North Dakota between Grand Forks and Devils Lake, just 10 miles north of Highway 2. Please stop by whenever you would like to inspect our breed-improving genetics!

Sale Date:
35th Annual Klain Simmental
Ranch Production Sale, Saturday,
February 5, 2017, Turtle Lake, ND

We need to keep these bulls and females easy fleshing, moderate, sound, fertile and functional to succeed in our extreme environment. Our cows are raised on native grass pasture with no grain supplement. We adhere to very strict culling practices for convenience traits such as polled, moderate frame size, quality udder structure, disposition and calving ease. We also put a lot of emphasis on profit traits, growth, milk, marbling, feed efficiency, tenderness, rate of gain, fertility and longevity. With the commercial producer in mind, we offer the entirely polled, powerful, balanced traits for a useful and efficient set of cattle, with emphasis on fertility, performance and balanced EPDs.

We are looking forward to the next five to 10 years in the beef industry as it should be very exciting. It has never been more important to purchase a sire to produce functional and productive females to expand your cowherd.

Profit Through Data

The “go-to” blog for Herdbook Data, Submissions, News and Important Deadlines.

How to Search for a Buyer Account Number —

How to do an ASA Member Search: In order to avoid multiple non-member buyer numbers, ASA recommends you look up buyer accounts prior to starting an online transfer job. If you simply type in name and address at time of transfer, the system is designed to look for a match, however, any slight variation in spelling . . .

Common Questions on Name Changes —

The Processing Team has noticed a high frequency of questions about changing animal names, and questions on using/adding a prefix. Below is a quick question and answer on two of the most common “name/prefix questions”: Can I change the name of the animal and add my account prefix? No, you can change the “name portion” of an . . .

Common DNA-Related Processing Errors and Warnings —

There are a handful of DNA-related errors and warnings that can potentially hold up the processing of a job or cause confusion. **ERRORS Q:** What does this mean? **A:** All purchased ET's must be parent verified before they can be registered. It is important to note that the DNA testing must go through ASA. We . . .

At the Ranch, Almont, ND

Your commercial bull headquarters, along with breed-leading herd sires! All backed by the TNT 100% guarantee! No creep feed! We invite everyone to come to the ranch to view the cattle and see the way we manage our herd. We are very proud of our cattle, and feel you will be proud of “The Explosive Difference” they will make for you. I truly have a passion for this business, and love breeding cattle and the never ending pursuit to try to make them better. One of our greatest blessings over the past 30 years is the wonderful people we have met, and the dear friends we have made in this business.

International Genetic Solutions (IGS)

"Alone we can do so little;
together we can do so much."
— Helen Keller

"In the long history of humankind (and animal
kind, too) those who learned to collaborate
and improvise most effectively have prevailed."
— Charles Darwin

An unprecedented collaboration between progressive breed associations to enhance beef industry profitability.

In 2010, the American Simmental Association and the Red Angus Association of America coalesced around the goal of better serving the commercial industry through comparable uniform seedstock evaluation — the result IGS.

Vision Statement:

To deliver the best objectively described, user-friendly and science-based genetic predictions to enhance the profitability of beef cattle producers.

Today, IGS is a collaboration of 12 progressive breed associations that have put the needs of the commercial cattle producer first by creating an unprecedented multi-breed genetic evaluation. With more than 16,000,000 total animals and 340,000+ new animals added annually, IGS has the largest beef genetic evaluation system in the world — a system that provides beef producers with the most powerful and user-friendly selection tools that have ever existed.

The IGS Advantage

- **Proven Genetic Evaluation System** — With roots tracing back to Cornell University's renowned geneticists, Dick Quaas and John Pollak, and over three decades of continuous improvements, the genetic evaluation software employed by IGS is one of the world's most trusted and respected.
- **Unrivaled Database** — The IGS database is not only unmatched in size, it's also unsurpassed in quality, as the vast majority of new records are derived from IGS partners who implement whole-herd reporting.
- **Simplified Selection Tools** — While the process of calculating EPDs on the world's largest multi-breed database is complex, the IGS partners have taken a revolutionary step by presenting the resulting EPDs on a common base; which allows users to directly compare the genetic merit of animals regardless of breed composition.

Buy Seedstock with IGS Generated EPDs

Never in history has there been such a wide array of genetic material evaluated under one roof. The result is the deepest and broadest selection pool ever available to our industry. Any geneticist will tell you that genetic reach, or the diversity of the selection pool, is a critical component in making genetic progress. With the ability to compare animals of virtually all breeds and breed combinations directly, IGS provides genetic reach on steroids!

"This concept of data sharing or data comingling facilitates efficient bull selection and adds a simpler tool to the commercial producer's toolbox for bull selection."

— Kris Ringwall, NDSU, in *BeefTalk*, Sept. 5, 2014

Genetic Evaluation for Commercial Producers

When it comes to selecting replacement heifers or making culling decisions, many commercial producers are limited to evaluating their females phenotypically or a simple gate cut. The former isn't much better than the latter and both are extremely primitive compared to the use of EPDs and economic indexes.

Many producers collect extensive data on their animals and face the daunting task of evaluating that data to make selection decisions. Now, these producers can enroll in the Commercial Option and benefit from a professional genetic evaluation. The Total Herd Enrollment (THE) Commercial Option (see page 51) calculates EPDs and economic indexes on all females enrolled allowing for the most accurate selection decision. In addition to genetic evaluation, the program provides on-line databasing and herd management software services.

The IGS Revolution

To maintain its leadership position, IGS teamed up with world-renowned geneticists from Theta Solutions, LLC, to develop what is soon to be the world's most advanced genetic evaluation system — across all species.

Dubbed BOLT (Biometric Open Language Tools), this system will greatly enhance the beef industry's ability to leverage genomic information, thereby accelerating genetic improvement at rates beyond currently possible.

The first IGS evaluation produced by BOLT is scheduled for 2016. Watch for it!

Carcass Merit Program

ASA's Young Sire Progeny Testing Program

With the first matings at the Sheek Ranch, Cabool, Missouri, in the spring of 1997 the American Simmental Association launched a program that would eventually change the direction and collective futures of all producers and users of Simmental Genetics. Then simply known as the Carcass Merit Project, the top sires of the Simmental and Simbrah breeds were randomly mated to commercial females with the plan to collect difficult to get progeny sire group carcass information and sometimes tenderness data. CMP is now entering its 19th breeding season. In addition to information about carcass traits, this program contributes well over 1,000 birth, weaning and yearling weights, and calving ease scores each year and nearly 4,000 shear force records have been collected. While feed intake has been collected in the past, the ASA is working to add intake data annually to the CMP.

These data collected also have allowed the ASA to amass substantial information for benchmarking so that performance and value expectations can be conveyed to current and potential customers of our members. From providing confidence regarding levels of calving assistance, all the way to predicting end product value for those wishing to be profitable in the feeding business, ASA can reliably estimate the performance of their genetic products due in part to the information collected on SimGenetic sires tested in these "real world" commercial situations. To date, data have been collected on individuals from 41 different commercial herds in 18 states with steers fed and harvested in nearly every cattle feeding region of the US.

Carcass Merit Sire Evaluation Program

You may ask yourself, who pays for all this? Bull owners commit thousands of dollars each year to get unbiased evaluation for the next generation of genetically influential young candidate sires. This information is important for all SimGenetic users as it builds significant accuracy for economically important EPDs and assists in the early screening for bulls that possess unique levels of trait differential and thus provide maximum selection leverage. Many of the industry's top sires of various breeds and breed combinations are CMP graduates.

For more information, contact:

American Simmental Association

Sires are tested in "real world" commercial situations. Data is collected from 41 different herds in 18 states with steers fed and harvested in nearly every cattle feeding region in the U.S.

Carcass Merit

- Over 35,000 commercial cows mated
- 10,000 carcass records collected
- Average 74% Choice, YG 2.8
- Complete tenderness data

Calving Ease

- 4,400 British heifers mated
- Average Birth Weight 78.6 lbs
- Elite Simmental calving-ease lines identified and published

Feed Conversion

- 1,318 sire-identified SimAngus™ progeny test steers
- Average Dry Matter Feed Conversion 6:3:1
- Average Daily Gain 3.62 lbs/day

The collection of feed intake is difficult and, for many breeders, far too expensive.

By working together, we can develop the means to leverage DNA in the genetic prediction of intake.

ASA currently has intake records on roughly 3,500 head, collected largely on carcass merit program cattle fed at the University of Illinois. This project came to a close 5 years ago.

Very little intake data has been submitted since the University of Illinois project.

To develop effective DNA predictions, we must ramp up our collection of intake data.

The ASA aims to collect feed intake data coupled with the carcass merit program starting in 2015 and we need your help.

We ALL will benefit from the collection of this data — ASA members, members' customers and the industry.

Your gift to the American Simmental Simbrah Foundation, earmarked for the Feed Intake Project will help make collecting feed intake data a reality for ASA.

Your Source for Everything Simmental

Circulation — 6,000 +

Circulation — 50,000 +

Circulation — 8,800 +

the Register

Serving as American Simmental Association's (ASA) official publication, *the Register* is mailed nine times annually, has a circulation of 6,000 +, and is focused primarily on ASA's paid membership. *the Register* is a glossy, full-color publication that provides a direct and consistent line of communication to the ASA membership.

SimTalk

Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of 50,000 + and targets commercial users of SimGenetics and is mailed to all ASA members. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

ASA Membership Directory

Increase your brand recognition and introduce your program to thousands by advertising in the ASA Membership Directory, mailed annually in June. Breeders reference this publication year-round, and new buyers use it to get into the Simmental business. Thousands more are distributed each year to your potential customers at trade shows and Simmental events.

Sire Source

A directory designed to assist in the promotion of semen sales of quality Simmental, SimAngus™ and Simbrah bulls. This directory is mailed each spring to every ASA member in order to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA field staff throughout the year. We also offer the opportunity to promote additional sires in the on-line version of Sire Source anytime during the next year. Promoting your bull in the on-line version opens huge marketing avenues for you.

A screenshot of the 'Sire Source On-line' website. It shows a list of sires for sale with columns for Name, ASA Number, Sire Number, Breed, and Color. The list includes sires like 'HARVEST Star Images 8000', 'HST Number 24', 'HLLPMD Real Angus 1109', 'JSH Star High 8076', 'JSH Aqueduct 2140', 'JSH's Impending Fate', and 'JSH's Cash Flow 1000'.

ASA Publication, Inc. is a wholly owned, for-profit subsidiary of the American Simmental Association, that publishes magazines and related media directed to breeders and cattlemen interested in Simmental cattle. These publications seek the following goals:

- ◆ Maintenance of quality communication sources for the American Simmental Association, its membership and the commercial industry, including: editorial content which provides Association and industry news; and as promotional, marketing and advertising vehicle for the membership.
- ◆ Enhancement of financial returns by performing additional services and programs to outside enterprises; thus, providing benefits to ASA and the membership, while building a strong staff.

- ◆ Development of cutting-edge technologies to ensure the position of ASA Publication, Inc. within the livestock and publication industries, by utilizing the most current technology and improved efficiency.

An effective outlet for Advertisers!

With the increasing demand for Simmental Genetics, now is the perfect time to create a specific marketing plan to access the growing number of breeders and available customers. ASA Publication, Inc. can help you target new business with a marketing strategy designed to establish reputation and expectation for your products and services.

Whether you choose one of our traditional, high-reputation print advertising outlets, or opt for new innovative web marketing services, let us help you develop a multi-faceted plan to bolster the success of your program.

Incredibly Affordable Full-Color Catalogs!

Be sure to contact Nancy Chesterfield for a free quote on your sale catalog or other special promotional items. Our quotes on low-cost, full-color printing options may just surprise you! Also, with our vast photo library and direct access to ASA's database, we can provide quicker, more efficient service in our catalog department — making the process easier for you.

Contact Nancy Chesterfield at 406-587-2778 or
nchesterfield@simmgene.com

Date Book

Listing of sales by month. Printed in each issue of *the Register* and *SimTalk*. No charge, no requirements.

Mailing Lists

Whether you are mailing a sale catalog or one of our special-design promotional projects, we can help you obtain a custom mailing list that specifically targets your ideal demographic. Contact Nancy Chesterfield at 406-587-2778 or nchesterfield@simmgene.com

Web Marketing

eLink — ASA Publication, Inc. has expanded beyond print advertising to offer our clients a broader range of marketing services. Our most popular form of web promotion is the **eLink**, an eBlast module that emails directly to more than 5,000 ASA members and subscribers. It's a quick and affordable way to get the word out about your upcoming event. Turn-around time for **eLink** can be as fast as one day.

One eLink eBlast	\$250	(includes design services)
Two eLink eBlasts	\$325	(no changes in design)
Three eLink eBlasts	\$400	(no changes in design)
Changes in design	\$250	per eBlast

eBanner — ad placed on our website and on weekly editions of ASA's eNews or Sales Call.

One eBanner \$200
Additional runs of same banner (if space available): \$75

On-line Sale Catalog

Posting ASA designed sale catalog online in flipbook or PDF format included in package. Posting of outsourced catalogs in flipbook or PDF format: \$150.

Additional Services

Our experienced design staff can assist you in developing any form of creative printed promotion. Projects we can produce include:

State Directories	Brochures	Flyers
Posters	Postcards	Banners
Printed Catalogs	Business Cards	eBlast Ads
Photo Retouching	Logos	Booths
Online catalog flipbooks	Websites	
Downloadable PDFs	Save-the-date postcards	

Per Bid Basis. Call 406-587-2778 to discuss details.

State Associations: A 10% increase in reimbursement for cost share dollars if ASA Publication services are used for ad design, newsletters, brochures, and/or directories.

Sales Call

If you have recently advertised in *the Register* or *SimTalk*, you are automatically included in **Sales Call** for the month prior to your sale. **Sales Call** is broadcast to over 5,000 subscribers. **Sales Call** announces the date of your sale, location, provides a link to your sale catalog or website and a map.

Added Value

Your advertisement in any one of our publications provides added value beyond your ad. Your sale dates will be published in the Datebook of both *the Register* and *SimTalk* issues leading up to your event, as well as on our website at www.simmental.org. Advertisers will also have sale reports published in *the Register* featuring sale averages, high-selling lots, and up to four photos.

Transfer Services for Sale Managers

Here's how it works: We provide a simple spreadsheet that contains all of the sale lots. Following the sale, return the completed spreadsheet to ASA — all we need is a record of the buyer number(s) on each lot — and your buyer number. We'll handle it from there, matching buyer information to ASA memberships and completing the transfers.

- ◆ It saves you time and postage expenses when we complete the transfers online.
- ◆ Ownership is updated immediately. As soon as you give the green light, we can mail the certificates directly to the new owners or send them to you.
- ◆ Saves you the hassle of dealing with the paper certificates.

Sale Date:
Profit Sharing 2017
Saturday, February 11

SimGenetics's #1 Supplier of Profit,
as predicted by \$API (Enterprise
Wide-Life-Cycle Profitability).

No need to sacrifice cow herd fertility
and longevity to get "Angus" calving
ease and quality grade. Bar CK offers
high calving ease, high carcass value
SimAngus™ bulls available in volume.
Bred and developed to work for
western ranchers.

Elite \$API, Calving Ease and Marbling
sires available for commercial A.I.
heifer projects. Contact Bar CK for
commercial heifer semen pricing.

Simmental

- A good bet for added performance.
- Blaze faced bull that is loaded with length, muscle and power.
- Big Casino is a unique find, not just for phenotype, but a true multi-dimensional bull which ranks in the top 20% for 10 traits.
- Progeny are lauded as being stout, big-hipped cattle with most having a good splash of white on their face.

Semen: \$22/unit

Sale Date:

Annual Bull and Female Production Sale, Friday, February 17, 2017

R & R Cattle Company is a family owned and operated business located in central South Dakota along the Missouri River. We are in the seedstock business to produce performance oriented Simmental, SimAngus™ and Angus bulls and females aimed at the commercial production of efficient beef cattle with high cutability. Traits such as polled or horned status, color, eye and udder pigmentation, disposition, udder quality, scrotal circumference and hoof quality are taken into consideration when making breeding decisions. Contact us for more information about our program and the genetics we have to offer.

Sale Date:

"King of the Range" Bull Sale –
Thursday, February 2, 2017

If you are trying to rebuild an aging cowherd, expanding an existing herd or simply trying to maximize pounds in a terminal program the option with Simmental or SimAngus™ are proven! We have tried to deliver genetics that will help in any direction you might be headed.

For the 6th straight year we have been recognized for being a Performance Advocate (PA) and enrolled in Total Herd Enrollment (THE) in that every animal in our herd has data turned in for birth weight, weaning weight, yearling weight and hip height. We take great pride in the data collection process and rest assured all the data is getting turned in.

Bulls and heifers are available for viewing at the ranch anytime, call or just stop by! If we can be of any help please give us a shout and thank you for taking the time to look thru our offering.

Linking Simmental genetics to the beef business!

ASA Publication, Inc. is a wholly owned, for-profit subsidiary of the American Simmental Association, that publishes magazines and related media directed to breeders and cattlemen interested in Simmental cattle. These publications seek the following goals:

- Maintenance of quality communication sources for the American Simmental Association, its membership and the commercial industry, including: editorial content which provides Association and industry news; and as promotional, marketing and advertising vehicle for the membership.
- Enhancement of financial returns by performing additional services and programs to outside enterprises; thus, providing benefits to ASA and the membership, while building a strong staff.
- Development of cutting-edge technologies to ensure the position of ASA Publication, Inc. within the livestock and publication industries, by utilizing the most current technology and improved efficiency.

An effective outlet for advertisers!

With the increasing demand for Simmental genetics, now is the perfect time to create a specific marketing plan to access the growing number of breeders and available customers. ASA Publication, Inc. can help you target new business with a marketing strategy designed to establish reputation and expectation for your products and services.

Whether you choose one of our traditional, high-reputation print advertising outlets, or opt for new innovative web marketing services, let us help you develop a multi-faceted plan to bolster the success of your program.

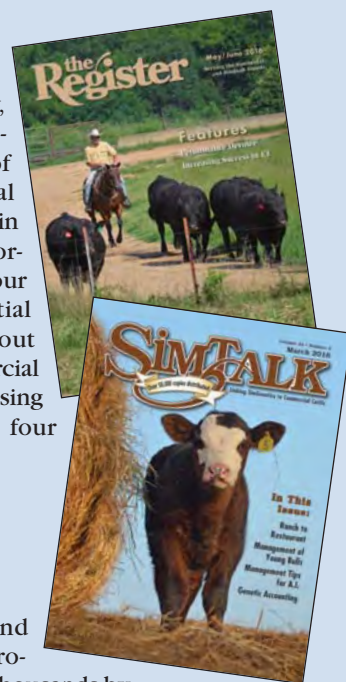

the Register

Serving as American Simmental Association's (ASA) official publication, *the Register* is mailed nine times annually, has a circulation of 5,500, and is focused primarily on ASA's paid membership. *the Register* is a glossy, full-color publication that provides a direct and consistent line of communication to the ASA membership..

SimTalk

Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of 50,000+ and targets commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

ASA Membership Directory

Increase your brand recognition and introduce your program to thousands by advertising in the ASA Membership Directory, mailed annually in June. Breeders reference this publication year-round, and new buyers use it to get into the Simmental business. Thousands more are handed out each year to your potential customers at trade shows and Simmental events.

Incredibly Affordable Full-Color Catalogs!

Be sure to contact Nancy Chesterfield for a free quote on your sale catalog or other special promotional items. Our quotes on low-cost, full-color printing options may just surprise you!

Also, with our vast photo library and direct access to ASA's database, we can provide quicker, more efficient service in our catalog department — making the process easier for you.

Date Book

Listing of sales by month. Printed in each issue of *the Register* and *SimTalk*. No charge, no requirements.

Mailing Lists

Whether you are mailing a sale catalog or one of our special-design promotional projects, we can help you obtain a custom mailing list that specifically targets your ideal demographic.

Web Marketing

eLink — ASA Publication, Inc. has expanded beyond print advertising to offer our clients a broader range of marketing services. Our most popular form of web promotion is the eLink, or eBlast that emails directly to approximately 5,000 ASA members and subscribers. It's a quick and affordable way to get the word out about your upcoming event. Turn-around time for eLink can be as fast as one day.

eBanner — ad placed on our website and Sales Call or weekly editions of ASA's eNews.

Additional Services

Our experienced design staff can assist you in developing any form of creative printed promotion. Projects we can produce include:

- | | |
|----------------------------|---------------------------|
| ◆ State Directories | ◆ Brochures |
| ◆ Flyers | ◆ Photo Retouching |
| ◆ Postcards | ◆ Booths |
| ◆ Logos | ◆ Business Cards |
| ◆ Websites | ◆ Banners |
| ◆ Printed Catalogs | ◆ Posters |
| ◆ eBlast Ads | ◆ Downloadable PDFs |
| ◆ Online Catalog Flipbooks | ◆ Save-the-date Postcards |

Sales Call

If you have recently advertised in *the Register* or *SimTalk*, you are automatically included in Sales Call for the month prior to your sale. Sales Call is broadcast to over 5,000 subscribers. Sales Call announces the date of your sale, location, provides a link to your sale catalog or website and a map.

Added Value

Your advertisement in any one of our publications provides added value beyond your ad. Your sale dates will be published in the Datebook of both *the Register* and *SimTalk* issues leading up to your event, as well as on our website at www.simmental.org. Advertisers will also have sale reports published in *the Register* featuring sale averages, high-selling lots, and up to four photos.

Transfer Services for Sale Managers

Here's how it works: we provide a simple spreadsheet that contains all of the sale lots. Following the sale, return the completed spreadsheet to ASA — all we need is a record of the buyer number(s) on each lot — and your buyer number. We'll handle it from there, matching buyer information to ASA memberships and completing the transfers.

- ◆ It saves you time and postage expenses when we complete the transfers online.
- ◆ Ownership is updated immediately. As soon as you give the green light, we can mail the certificates directly to the new owners or send them to you.
- ◆ Saves you the hassle of dealing with the paper certificates.

Sire Source

A directory designed to assist in the promotion of semen sales of quality Simmental, SimAngus™ and Simbrah bulls. This directory is mailed each spring to every ASA member in order to target potential clients at the height of the semen sales season. Thousands more are handed out at trade shows and industry events, and carried by ASA field staff throughout the year. We also offer the opportunity to promote additional sires in the on-line version of Sire Source anytime during the next year. Promoting your bull in the on-line version opens huge marketing avenues for you.

Here's what you get:

- ◆ Instant access through on-line Sire Source Catalog.
- ◆ Print version in hard copy at no cost to you.
- ◆ eBlast the month we feature your bull.
- ◆ Discount on a full or half page ad in *the Register* or the *SimTalk* anytime during the on-line post.

The Most Profitable Calf is the Crossbred Calf.

SimAngus™ The Obvious Choice.

"Crossbred steers with a **50:50 ratio of Continental European to British breed** inheritance are likely to produce a more **optimum** balance between carcass **quality grade** and **yield grade** than crossbred or straightbred steers that represent either 100% British breed, or 100% Continental European breeding."

— MARC GPE Progress Report No. 22, USDA

Trait	Simmental Rank vs. Major Continental Breeds*	Angus/Red Angus Rank vs. Major British Breeds
Marbling Score	First	Second
Carcass Weight	First	First
# Retail Product	Second	First
Weight Gain Feed Efficiency	First	Second
Weaning Weight	Second	First
Post Weaning Gain	Second	Second

Sale Date:

23rd Annual BHR's Designer's
Classic Sale, May 20, 2017

Since 1982, **Buzzard Hollow Ranch** has been striving to produce Fleckvieh cattle that are moderate framed with fertility and milk, easing calving, set on sound feet and legs. The cattle have to have body capacity, natural muscling, short hair coats, longevity, carcass quality, ease of fleshing and eye appeal, all to meet the needs of our environment and that of our customer base. In addition to the Fleckviehs, Simbrahs and SimAngus™ have been added to the program, along with Red Angus to meet the needs of a broader customer base. Select both Power and Maternal genetics and blend them into a select product that has calving ease and growth, fertility, milk, muscle, depth of rib, ease of fleshing, with excellent carcass data all set on sound feet and legs. Our future depends on our ability to produce cattle that meet the needs of the Seedstock Producers worldwide and meet the needs of the Commercial Cattle Industry.

7P Ranch

We've been breeding Simmental and SimAngus™ cattle for over 40 years. In that time our breeding program has involved extensive A.I. utilizing breed leading proven genetics. Everything we do is based on our goal of providing practical cattle for practical cattlemen. And, because of that, we produce a complete package—the kind of cattle that are sound, functional, efficient, productive.

We believe you'd like our kind of cattle.

Join us at our upcoming sales at the Ranch, Tyler, Texas

A dollars & sense PROGRAM.

At Tom Brothers Ranch
our focus is very simple...

...we use cow sense and science to produce problem-free cattle that are suited to hot, humid climates and turn a profit for us and our customers.

We measure and report every trait from birth to carcass and use that information to continually improve our herd. We have a strong lineup of donor females and utilize AI extensively to offer cutting edge genetics.

We would love to show you our program, our cattle and invite you to visit us on the web or even better here at the ranch!

13th Annual Cattleman's Kind Bull Sale, March 9, 2017, San Saba, TX

Keeping quality at the center of our attention! Our emphasis is and always has been on quality. We demand a combination of balanced EPDs, visual appraisal, ultrasound data and we place a priority on tenderness and marbling technology. In addition to our herd sires, we use some of the most popular and proven AI sires in the breed.

For Quality Simmental Purebred and Percentage Give Us A Call!!

SAVE THE DATE

Fall Focus 2016

August 19 – 23 • Bozeman, MT

- Tour the new ASA headquarters and enjoy a Friday night barbecue with Simmental Friends
- Attend the Third Annual Fall Focus — our day-long educational symposium on Saturday at the Holiday Inn
- Hear from Drs. Dorian Garrick, Bruce Golden, Jared Decker, and the ASA genetics team
- Enjoy a social dinner on Saturday evening at the Holiday Inn
- Participate in Committee Meetings all day Sunday
- Join the ASA Board of Trustees' Meeting on Monday
- Plan a trip to Yellowstone National Park — the oldest National Park in the US
- Watch for more details on www.fallfocus.org

A Profitable Cow Herd Begins With Honest Reflection.

1. Who is Profiting?

Are your industry partners helping you stretch your dollars? Or, are you merely lining the pockets of others? In an effort to chase those vaunted premiums have you sacrificed the fertility and longevity of your cowherd? Have you been convinced of the merits of straightbreeding, when you know the time-tested truths of crossbreeding and heterosis? Tradition only has staying power if it is linked with technology, adaptability, and beneficial business relationships.

USDA MARC GPE Progress Report 22 data states that a 50% Continental x 50% British composite is optimal balance of yield grade and quality grade.

2. Collaboration.

You demand humble business partners willing to collaborate on your behalf. You reach your hand across the fence and expect your breed association to have the courage to do the same. The American Simmental Association was a founding partner in International Genetic Solutions (IGS). IGS now represents 12 breed associations and the largest beef genetic evaluation on the planet. We Collaborate. You Profit.

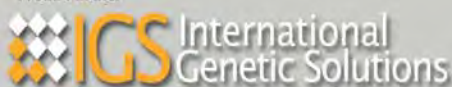

IGS has over 16 million head in its database and adds more than 300,000 head every year.

3. Truth.

Ask any crop farmer – the size of a check doesn't reflect profitability. In recent years, crop producers deal in larger dollars, but haven't necessarily taken more money home to their families. It is uncontested that cow fertility and reproduction are the primary impact on the bottom line for a beef producer. Regardless of biases or misconceptions, some breeds have focused on an efficient cow while some speak purely to terminal premiums.

It is scientific fact that the Crossbred cow is more fertile and more profitable over her lifetime.

Sale: heifers and bulls private treaty

We summer our cows in the mountains of Southeastern Idaho between 6,500' and 8,750', and then bring them home each fall to winter. Our operation focuses on raising high-quality Simmental and Angus seed stock cattle both for the purebred breeder and for the commercial cattlemen utilizing embryo transfer and extensive artificial insemination. Our cattle have performed well both in the ring, in the pasture, and on official feed tests. We do not emphasize one particular trait over another, but strive to provide a balanced animal that will have longevity, milk well while maintaining her own body weight, and wean a heavy calf without creep. Docility is a trait that will not be compromised no matter how perfect the animal. Our customers have appreciated the gentle nature of our bulls for years.

Top Hat genetics come

dressed in both black and red... some with a little chrome! If you want performance with Style, always remember to grab a TOP HAT!

ASA DNA • Carcass Merit Program

DNA Enhanced EPDs

For decades, the American Simmental Association has used DNA to verify color, genetic defects and parentage. Recent research has enabled DNA tests to provide valuable information for genetic evaluation. We are now offering a DNA test that, when incorporated into ASA's genetic evaluation, can add a significant boost to lower accuracy EPDs.

Carcass Merit Sire Evaluation Program

At 19 years and counting, ASA's Carcass Merit Program (CMP) is the longest-running, structured carcass test in the business. Each year bull owners, bull studs and ASA commit thousands of dollars to create and collect carcass data on the industry's hottest young sire prospects. The resulting information has allowed the industry to sift the wheat from the chaff when it comes to carcass traits. Many of the industry's top sires of various breeds and breed combinations are CMP graduates.

**For more information
on these two programs, contact:**

WSA Midwest Fall Round-Up Sale
Grant County Fairgrounds — Lancaster

2017

March

11-12

WSA Annual Meeting and Spring Spectacular
Sale Weekend
Grant County Fairgrounds, Lancaster, WI

Junior Purchase Credit Incentive Program

- Juniors purchasing heifers, steers or embryos at a WSA sanctioned sale will now be eligible to receive credit toward their next purchase of an animal and/or embryos at future WSA sanctioned sales or utilize earned show credits, if eligible, toward scholarships.
- Juniors must be a member in good standing in either the WJSA or a member of another state cattle association. Any Junior that shows his or her animal at least twice and provides validated proof of purchase and participation in an event with the animal that was purchased at a WSA sanctioned sale shall be eligible for a \$150.00 credit toward their next purchase of an animal from a WSA sanctioned sale. Any Junior in or entering his/her Junior year of High School up to their maximum WJSA membership age, with commitment to a post secondary education will be eligible to convert their purchase credits into a scholarship to the school of their choice. Scholarship will be paid upon completion of first semester and proof of enrollment in the following semester.
- The animal is not required to place or win to be eligible.
- Please refer to the WSA/WJSA website for more information.

Junior Program

Emily Lochner

Director,
Youth and PTP Program
elochner@simmgene.com

Youth Programs

The American Junior Simmental Association (AJSA) is the official youth organization of the American Simmental Association. Founded in 1975, the AJSA has more than 3,500 members. The AJSA strives to enhance youth potential for life success by instilling a comprehensive understanding of the beef industry while developing leadership, networking, and communication skills. The AJSA is governed by 16 AJSA Trustees, with each person

serving a two-year term. The Trustees generate progressive leadership and educational activities, make recommendations for new programs and ideas, all the while striving to strengthen the leadership potential of the junior members, and promote Simmental cattle.

AJSA Summer Classics

Each summer, youths from around the nation gather to compete in the AJSA Summer Classics. Exhibitors not only show their cattle, but also compete in three of four educational contests. Through these contests, the AJSA endeavors to develop highly skilled young breeders motivated to continue in the beef and agriculture industries.

Regional Classics

Regional Classics are hosted by a state Simmental association in three of the ASA's four regions. The region hosting the National Classic does not typically host a regional Classic event. Held in June, Regional Classics are, for many members, a warm-up for the National Classic. Regionals are a fun-filled week of friends, cattle, and educational contests.

National Classic

The National Classic is the highlight of the AJSA summer events and is co-sponsored by the American Simmental Association and the host state Simmental association. The National Classic provides an opportunity for AJSA members to showcase their knowledge of the cattle industry and their cattle. Unlike any other beef breed junior national event, the National Classic requires exhibitors to participate in four of five educational competitions to be eligible to exhibit cattle. Competitions in public speaking, interview, livestock judging, and sales talk competitions at the Classic use real-life experience to develop confidence and communication skills for our youth — the future of

the Simmental industry. Juniors from across the country vie for top honors to place in the Top 20 of each of the contests and the esteemed Overall Top 20 of each age division (junior, intermediate, and senior).

Many activities are showcased at the National Classic. These include:

- ◆ Bred-and-owned and owned Simmental, Percentage Simmental, Simbrah, and Fullblood female, cow-calf, and steer shows
- ◆ Showmanship
- ◆ Sales Talk
- ◆ Livestock Judging
- ◆ Photography and Interview Contest
- ◆ Merit Award winners recognized
- ◆ Cattlemen's Quiz
- ◆ Public Speaking
- ◆ Junior Herdsman of the Year

Summit Leadership Conference

While the Regional and National Classics promote the show cattle and educational contests, the AJSA's biennial Summit Conference focuses on leadership development. Junior members, parents and advisors from all over the country participate in the event. During the four-day event, they hear nationally known speakers, visit farms and ranches, and attend workshops designed to enhance the individual's leadership talents, communication skills, and beef industry knowledge.

Scholarship

The AJSA is dedicated to learning. Each year the American Simmental-Simbrah Foundation awards thousands of dollars in scholarships to AJSA members receiving the Silver and Gold Merit Awards.

Looking at Me?

It's ok. Everybody Is.

"The barn-favorite Best of the Barns Award deemed **SIMMENTAL** the "Hottest Breed of 2015."

The fire continues well into the 2016 year, gearing up for the Denim and Diamonds in Des Moines National Classic. We are breaking records with entry numbers and expanding our program like wildfire. Come join us in Iowa July 9-15. Even if you don't have a heifer, we have plenty of activities for everyone. Play a round of golf to benefit the American Simmental Simbrah Foundation, or bring pop tabs to donate to the Ronald McDonald House. Des Moines is The Place to be Seen in 2016!"

Are you a Canadian Breeder wanting the most complete source of Simmental information in the US?

Get
the Register
and
SimTalk!!

the Register, the official publication for American Simmental Association, is sent to all active, adult members. If you are not a member, but still want to receive *the Register*, it is easy to subscribe.

ASA Membership:

1. Membership costs: \$50.00 initiation/set-up charge plus \$110.00 annual service fee which totals \$160.00 US Dollars for the first year.
2. Annual service fee after the first year is \$110.00/year US Dollars.

If you have or would like to join the ASA, contact Marilyn Roth at 406-587-4531 or Linda Harris-Bakken at 406-587-4531.

Subscription — *the Register*:

1. Subscription rate:
\$100.00/year US Dollars.
9 issues produced annually.
2. All issues of *the Register* are mailed first-class.

To subscribe, you may do so by contacting Nancy Chesterfield or Rebecca Price at 406-587-2778.

Fees:

- Fees are in US Dollars.
- Payment may be made by Visa or MasterCard credit card.
- If payment by check, it must have US dollars printed on the check and have a nine digit routing number to avoid additional fees. Additional fees are the conversion of Canadian rate to US rate and a \$10.00 bank international fee.

Thanks for your interest!

The basic difference between subscription and membership after the first year is you will pay an additional \$10.00 each year by becoming a member.

SimTalk:

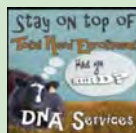

SimTalk designed for commercial cattlemen, has a circulation of more than 50,000 readers. Print subscriptions to *SimTalk* are not available in Canada. An electronic on-line version of *SimTalk* is available for free, with two easy steps:

- Visit American Simmental Association website: www.simmental.org — Click on “ASA Publication” tab.
- Under *SimTalk* click on “read this issue”.

Electronic News:

Don't miss receiving other electronic news. Visit the home page www.simmental.org to sign-up for eNews, Sales Call, eLink and AJSA Newsletter Hotwire. Click on the “Join ASA” tab, and then click on the “Subscribe to eNews” tab.

Click on the “Blog” tab to read and learn more about SimGenetics.

ST

Kappes Pendleton B6

Simmental

- Pendleton is a powerfully constructed, sure-footed bull with tremendous rib capacity, a smooth shoulder and and eye-catching profile.
- You can have confidence that this red bull will produce females that not only have a show ring appeal but will make functional females to have longevity in your herd.
- He was the high-selling bull at the 2015 Kappes Simmental Bull Sale.
- The combination of Pendleton's phenotype and genotype should produce calves that excel in maternal and terminal traits.

SimTalk is an 8 1/8 x 10 7/8 inch publication produced by *the Register*, the official publication of the American Simmental Association. Published four times annually, *SimTalk* is a glossy, full-color publication with a circulation of 50,000+ and targets commercial users of SimGenetics. Advertising in *SimTalk* provides a unique opportunity to brand and trademark your program to thousands of potential customers. If you are serious about communicating with the commercial beef business, consider an advertising presence in every one of our four annual issues.

Space and four-color rates for *SimTalk*:

Space Rates	Non-Contract	2X Contract	4X Contract	Four Color
1 page	\$890	\$840	\$800	\$300
2/3 page	\$760	\$730	\$700	\$200
1/2 page	\$510	\$480	\$460	\$150
1/3 page	\$380	\$370	\$350	\$100
1/4 page	\$260	\$250	\$230	\$75
1/8 page	\$150			\$50
3-inch mini	\$115			\$30
2-inch mini	\$85			\$15
2-inch card	\$289/year, 4 insertion			\$60
1-inch card	\$220/year, 4 insertions			\$40
Classified Ads	\$2.00/word, \$24.00 minimum, must be prepaid			

SimTalk Deadlines for Publication:

	Sales Close	Ad Materials	Camera Ready	Mail Date
Early Fall 2016	July 22	Aug 1	Aug 12	Aug 24
Late Fall 2016	Sept 20	Sept 27	Oct 10	Oct 20
January 2017	Dec 5	Dec 14	Dec 23	Jan 12
March 2017	Jan 23	Jan 30	Feb 10	Feb 24

ASA/*SimTalk* Membership Directory 2017 Deadlines for Publication:

May 2	May 9	May 23	June 12
-------	-------	--------	---------

Send all ad materials to: register@simmgene.com or Fax: 406-587-9301

A non-refundable fee of \$50.00 will be assessed if a client does not meet deadlines or if the client commits to advertising and cancels after the deadline or if the ad must be dropped to ensure on time publication.

Advertising materials (including photos) must be in *SimTalk* office by the dates listed above. *SimTalk*, which mails by bulk rate, assumes no responsibility for actual receipt date.

Design Charges

Advertising rates are for camera-ready ads only. Additional design charges will apply to any ad that is designed by ASA Publication, Inc.

Layouts & Proofs

Although every effort will be made to provide proofs on all ads, proofs are guaranteed only if all ad material arrives in *SimTalk* office prior to deadline.

Terms

All accounts are due and payable as invoiced. Interest charges of 1.5 percent per month (18 percent APR) will be added to accounts 30 days past due. If an account becomes 60 days delinquent, all ASA Publication, Inc. work may be suspended until full payment is made. After review by the ASA Executive Committee, ASA privileges may be denied to those with accounts over 90 days delinquent.

Advertising Content

SimTalk and its staff assume no responsibility or obligation to verify the accuracy and truthfulness of advertising copy submitted to *SimTalk*. However, *SimTalk* reserves the right to reject any advertising copy or photo which *SimTalk* deems unsuitable for publication for any reason, including copy or photographs which are false or misleading. *SimTalk* assumes no responsibility for the accuracy and truthfulness of submitted print ready ads. Advertisers shall indemnify and hold harmless *SimTalk* for any claims concerning advertising content as submitted. Advertising containing pedigrees or statements regarding performance must conform to records kept by the American Simmental Association. Copy deviating from official records may be changed as necessary without advertiser consent.

Editorial Policy

Opinions expressed are the writers' and not necessarily those of *SimTalk*. Photographs are welcome, but no responsibility is assumed for material while in transit or while in the office.

1SM00126 MCM TOP GRADE 018X

TOP GRADE

PREGCHECK™

105
97% Reliability

MR NLC Upgrade U8676 x MCM Marbler 307N | Reg#: 2540315

- Top Grade is known for the extra eye appeal he will add to his progeny.
- He is moderate in his birth weight and calving ease, but with excellent growth and top ranking carcass merit traits, proven in the Simmental Carcass Merit Program.

Homozygous Black, Homozygous Polled, ¾ Simmental, ¼ Angus

GRADUATE

PREGCHECK™

100
95% Reliability

Hooks Shear Force 38K x ALC Big Eye D09N | Reg#: 2548143

- He is one of the few sires to rank in the top 2% for calving ease and birth weight and be over 100 for yearling weight. REA ranking in the top 1% is very difficult to find in a calving ease sire.

Homozygous Black, Homozygous Polled, ¾ Simmental, ¾ Angus
