

TP SEVEN P RANCH

48th Annual **PRODUCTION SALE**

Saturday October 28, 2023 • 1:00 PM

At the ranch, 10678 FM 757, Winona, TX 75792

48th Annual Production Sale

Welcome to 7P Ranch's 48th Annual Production Sale.

We are offering Black and Red purebred Simmental and SimAngus™ bulls and bred females. The bulls offered are from 12 to 26 months old. All bulls that are 14 months of age or older have been fertility tested. All fertility test on bulls and pregnancy status on all 7P females offered will be determined by our licensed veterinarian, Dr. Adam Byrd.

Again, this year, we are offering 50 select black and red, Simmental and SimAngus™ females. This will include bred females and pairs. Also included will be a select group of 12 open yearling heifers. Six heifers will be pure bred Simmental and six will be SimAngus™. These heifers will be ready to breed this fall..

We will have a very nice set of 100 Simbrah females. All will be registered with ASA, except for two, and 63 are eligible to be Golden Certified by ABBA. There will be 40 females that are out of our SimAngus™ cows and Brahman bull. All of these females will be bred to pure bred Simmental and Angus bulls, except for the select group of 5 open yearling Simbrah heifers.

Our breeding program consist of using a timed A.I. synchronization on all of our heifers and cows. After cattle are inseminated once, they are observed until their next heat cycle and we will A.I. those that come in heat a second time. Three to five days after their second cycle, we turn them in with the herd sires. Those females that do not have a second visualized heat cycle are turned in with the herd bulls and are not bred A.I. We make every effort to call the due dates as correctly as possible.

We are pleased to offer cattle from our friends Paul Bayer and Tommy Goodwin. Paul and his family and TAG Simmentals both share our commitment to producing good honest cattle

Everyone will be able to view the cattle on Friday afternoon, October 27th, and the morning of sale day. Our sale day BBQ lunch will be served at 12:00 noon and the sale will begin at 1:00 p.m.

Again, welcome to the 7P Ranch and sale. If you need further assistance in any way, please do not hesitate to contact us.

SALE TERMS AND CONDITIONS

The following suggestions are offered as possible terms and conditions of sale to be agreed upon before the sale of 7P Ranch cattle. It recognizes that these suggestions may not be mutually agreeable and are not intended as a substitute for competent legal advice.

BIDDING AND APPLICABLE LAW:

All cattle listed in this offering comply with prevailing sale terms and conditions as set forth by the laws of the state wherein the sale is conducted. There are no warranties, express or implied, by either the auctioneer or consignor, except as set forth herein, as to the merchantability of fitness for any particular purpose of any animal offered in this sale. The right to bid or the right to reject the final bid, if done before the hammer falls, is reserved for all sellers unless otherwise announced from the sale block or as prohibited by law in the state wherein the sale is being conducted.

ANNOUNCEMENTS:

Any change of information other than in the catalog will be announced from the auction block and such announcements shall take precedence over printed material. All statements made from the auction block or those made by the seller (in private treaty) must be documented by seller if requested by the buyer at time of sale.

TERMS:

Terms of sale are cash unless satisfactory credit arrangements have been made with the seller previous to the sale of any animal so affected.

PURCHASER'S RISK:

Each animal becomes the property of and therefore is also the risk of the purchaser as soon as it is sold; except it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of twenty four (24) hours after the sale, whichever occurs first.

HEALTH REQUIREMENTS:

1. All cattle entered for sale must meet the health regulation of the state in which they are sold. All other agreements regarding the health of the animal will be between the buyer and seller and should be documented in writing.
2. If sale cattle are returned to the seller for an adjustment, they must meet the health requirements of the state they are returned to.

CERTIFICATE OF REGISTRY:

Each animal which is catalogued, offered, and sold as a registered animal shall have a certificate of registry available at time of sale. When an animal is sold as "eligible for registry" or "registry applied for", the seller shall be responsible for obtaining the certificate of registry and for the proper transfer of the certificate to the purchaser including full payment of transfer fees.

IDENTIFICATION:

Each animal at time of sale must have a readable tattoo or brand corresponding to that shown on the certificate of registration.

AUTHENTICITY OF PEDIGREE:

When an animal, through blood-typing, is determined to have ancestry other than that reported on the registration certificate, the buyer shall be entitled to a refund of the purchase price from the seller upon return of the animal to the farm of the seller at the seller's expense. The animal in question at the buyer's option may exchange for another animal of equal value, or if agreeable with the buyer, the seller may have the certificate returned to the buyer. Any adjustment provided herein, if selected, shall absolve the seller from further liability for authenticity of pedigree to the buyer.

BREEDING GUARANTEES AND DEFINITIONS:

1. Females are guaranteed to be breeders, with the exception of:
 - a. Female calves sold at side of dam
 - b. Injury or disease occurring to the animal after time of sale
 - c. Gross negligence or willful misconduct on the part of the purchaser
 - d. Females used in ovum transplant after time of sale
 - e. Cows sold with calf at side or female that calves after sale to a breeding prior to the date of sale
2. Bulls are guaranteed to be breeders (defined as the ability to settle healthy cows by the time the bull is 18 months of age) with the exception of:
 - a. Bull calves sold at side of dam
 - b. Injury or disease occurring to the animal after time of sale
 - c. Gross negligence or willful misconduct on the part of the purchaser
 - d. Bulls shown competitively after sale
3. Any guarantees with respect to the ability to freeze semen shall be made by separate agreement between the buyer and seller.
4. Safe in calf females are females that have been diagnosed pregnant by a competent veterinarian and are pregnant at time of sale.
5. A bred female is a female known to have been served by a bull either by natural breeding

or artificial insemination, but it does not necessarily mean that the female is safe in calf to that service.

6. A pasture-bred female is a female that has been pastured with a designated bull and has been exposed for the time stated, but it does not necessarily mean that this female is safe in calf to that bull.
7. An open heifer is a virgin heifer that has never been exposed to a bull either through natural service or artificial insemination.
8. An open cow is a cow that has not been exposed to a bull either through natural service or artificial insemination.
9. Calves sold off their dams (split pairs) shall carry the full breeding guarantee.

PRIVILEGE OF PURCHASER TO EXAMINE:

The purchaser of a female animal may have her examined within one week after the sale. The pregnancy status or breeding status of any female so examined, when found not to be as represented at the time of sale, is cause for the female to be returned to the seller as unsold.

EMBRYO TRANSFER:

1. Sellers should provide upon request a complete history of embryo transfer activity for any female offered for sale.
2. Polled/Scurred - An animal with rudimentary horn growth that will not develop into a horn. The rudimentary horn growth may or may not become affixed to the skull at an older age.
3. Polled - An animal with absence of horn growth. (An animal can have scurs and still be genetically polled.)
4. Smooth Polled - A smooth-polled individual has no scurs and does not develop scurs later in life.

GUARANTEES:

1. If an animal is sold as polled or polled/scurred and proves to be horned, the seller shall be obligated to refund the purchase price upon return of the animal to the farm of the seller at the expense of the seller or may be exchanged for a polled animal of equal value, whichever is acceptable to the buyer. The buyer has thirty (30) days from date of sale to notify the seller that an adjustment is in order.
2. If an animal is sold as polled and has scurs, the seller will not be obligated to make any adjustments as a scurred animal is considered polled.
3. If an animal is sold as polled and has scurs, it shall be so announced at the time of sale that the animal has scurs. If it is not announced and the buyer finds before the animal leaves the premises that the animal has scurs, the buyer must notify the seller of the findings. The seller shall then be obligated to refund the purchase price.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

The following adjustments do not preclude the right of the buyer and seller to mutually agree upon other terms and conditions for settlement of any dispute:

1. All claims for adjustment or refund must be made in writing either within six (6) months from the date of sale or no later than when the animal reaches 24 months of age whichever occurs later, with the exception of claims involving misrepresentation of service sire or as otherwise provided herein.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the seller, at buyer's expense if in good physical condition, and the return is in compliance with the health requirements of the seller's state. The seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove the animal is a breeder. If at the end of six (6) months the seller is unable to prove the animal is a breeder, the seller shall, at the option of the buyer, replace the animal with another of equal value or refund the purchase price. Either option shall be deemed full satisfaction and settlement.
3. If a female is sold as "safe in calf" to a given sire or sires on a specified date or dates and proves not to be as represented, the buyer is entitled to a refund of the purchase price from the seller upon return of the animal and resulting progeny thereof to the farm of the seller at the seller's expense.
4. If a female is sold as "open" and proves to be with calf at the time of sale and examined pregnant within sixty (60) days after sale, the buyer may return said female for the purchase price or for another animal of equal value, whichever is acceptable to the buyer. It shall be the obligation of the seller to bear any expenses incurred for transportation of the animal in question to the farm of the seller.

LIMITATION OF OBLIGATIONS:

If the aforementioned suggested terms and conditions are adopted, they should constitute a contract between the buyer and seller for each animal sold under these terms, and as such, should be binding upon both parties. Animals resold following purchase in a sale shall constitute a separate transaction and the privileges and obligations of the original two parties connected thereto are not covered by the terms and conditions of the sale.

BUYER INFORMATION

HERD HEALTH

All cattle will sell with proper interstate health papers. All females were calfhood vaccinated. All sale cattle have been vaccinated with IBR, BVD, P13, Vibro Letpo 5, and eight-way black-leg. All bulls have been fertility checked and all heifers are reproduction tract examined. All sell guaranteed breeders. All eligible cattle will be brucellosis tested.

BULL CARE

Your yearling bull is a major investment. Experience has shown us that yearling bulls can function very well even under harsh environments. You can count on them to breed 20-25 females depending on the conditions. We have the following recommendations:

1. If possible, run your yearling bulls separate from older bulls during their first breeding season.
2. Make sure that your bulls gain weight in the fall after the breeding season before winter.
3. Feed energy supplementation (grain) beyond simply grass and protein to your yearling bulls. Avoid feeding the young bulls in the same pasture with older or horned bulls.

SIMMENTAL EPD EXPLANATIONS

Calving Ease Direct (CE-H) - predicts the average difference in ease with which a sire's calves will be born when bred to first-calf heifers. Expressed as percentage of unassisted births with a HIGHER value indicating greater calving ease.

Birth Weight (BW) - expressed in pounds and predicts the average difference that can be expected in an animal's offspring when compared with another animal in the same genetic evaluation. The LOWER the number the better here.

Weaning Weight (WW) - expressed in pounds and predicts the average difference in weight that can be expected between the progeny of animals in the same genetic evaluation of 205 days of age. The HIGHER the WW number, the more pounds weaned.

Yearling Weight (YW) - like Birth and Weaning Weight EPDs, Yearling Weight EPDs are expressed in pounds and predict the average differences that can be expected between progeny of animals at one year of age. Like weaning weight, the HIGHER the number, the more pounds at yearling time.

Maternal Calving Ease (MC) - predicts the average ease with which a sire's daughters will calve as first-calf heifers compared to the daughters of another sire in the same evaluation. Expressed as percentage of unassisted births. A HIGHER number here indicates a higher percentage of unassisted births.

Maternal Milk (MM) - expressed as pound of calf weaned

by a bull's daughters. Reflects the average differences in weaning weight than can be expected in grandprogeny due to the milking ability of a bull's daughters.

Maternal Weaning Weight (MW) - this EPD value predicts the difference in average 205-day weight of a bull's daughters' calves compared to calves from daughters of all other bulls evaluated. The evaluation reflects both the maternal ability of the bull's daughters and the growth potential of their calves. When comparing maternal weaning weight EPDs of two sires, the larger maternal weaning weight EPD indicates heavier weaning weights due to the daughters' ability to produce heavier calves. Maternal Weaning Weight EPD is calculated by: $MWW\ EPD = MMK\ EPD + 0.5\ (WW\ EPD)$.

EPDS FOR CARCASS TRAITS

Explanations of the ultrasound measurements are as follows:

Marbling (MB)

The difference in marbling score expected in a bull's offspring compared to the offspring of other bulls in the population.

Yield Grade (YG)

The difference in yield grade expected in a bull's offspring compared to the offspring of other bulls in the population. Next sire summary YG EPD's will be used. These are figured by dividing the percent of retail cuts EPDs by -2.3.

Carcass Weight (CW)

The difference in carcass weight expected in a bull's offspring compared to the offspring of other bulls in the population.

All-Purpose Index (API)

Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

Terminal Index (TI)

Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

**FINAL DATA WILL BE AVAILABLE ON
SUPPLEMENT SHEET ON SALE DAY**

New Base Comparison PB EPDs

The Fall 2012 ASA Genetic Evaluation marks the first time major breeds have expressed their EPDs on a common base (same scale). The common base was a natural evolution for the RAAA/ASA genetic evaluation partnership. The boards of both organizations unanimously agreed that it was a positive step for the beef industry—a step that allows producers to directly compare genetic predictions from the largest multi-breed database in the world. The change to the base does not change the evaluation of animals; it just changes the magnitude of the EPD.
